

Settlement and Protection Profiling

Camp 10 Ukha, Cox's Bazar, Bangladesh

Nov / Dec 2018

December and April 2018 trend comparison

Background and methodology

This profile provides a multi-sector overview of conditions in the Rohingya sites in Cox's Bazar District, Bangladesh to offer insights on the evolving protection needs of refugees living in the camps. Data for the findings was collected in 33 camps from 25 November - 17 December, 2018 for the fourth round of Settlement and Protection Profiling (SPP) funded by UNHCR and implemented by REACH. Key indicators provide contextual and operational findings at the household level. Findings are compared to those of SPP Round 3 which took place from 7-27 March and 15-20 April, 2018¹. Translators Without Borders supported with translating the form into Rohingya.

Primary data was collected through household surveys randomly sampled from shelters located within 33 settlement boundaries. Results of this assessment are generalizable with 95% confidence level and 10% margin of error at the camp level. This factsheet presents an analysis of data collected in Camp 10, where 97 households were surveyed.

The Round 3 form was translated into Bangla then verbally translated into Rohingya by enumerators, while the Round 4 form was translated directly into Rohingya. It is therefore possible that potential differences in communicating questions between Round 3 and 4 may affect comparisons where relevant. Data collection began one week after an attempted repatriation to Myanmar, thus some eligible households chose not to participate out of fear of sharing detailed information. This fear may have created a bias towards those respondents who were willing to participate in this assessment. The non-response rate was 5%.

November/December 2018 data is presented in **dark blue**, and March/April 2018 data is presented in **light blue**.

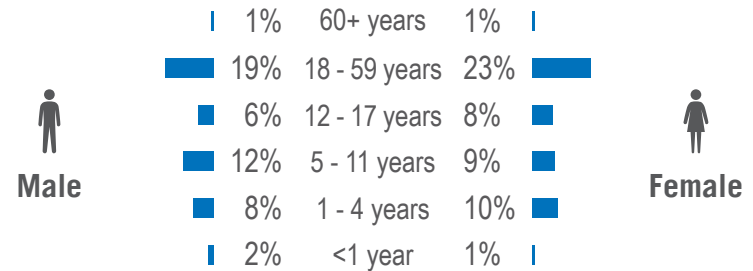

Key Camp Information

Camp Management Agency	RRRC
Site Management Support Agency	IOM / IOM
Population (individuals) ³	32,667
Population (families) ³	7,575
Camp Area	0.5 km ²
Population density	65,842 individuals/km ²

Demographics

Household composition by gender and age

56% of individuals are under 18

79% of individuals are women and children

Period of arrival³

92% of households arrived 25 August 2017 or later

Household size

Number of individuals per household:

There is an average of **5.2** individuals reported per household

Persons with Specific Needs (PWSN)

% of families with Persons with Specific Needs (PWSN), by need³

Separated children	2%	Unaccompanied children	1%
Older person at risk	4%	Person with disability	5%
Older person at risk and children	3%	Single male parent with infants	1%
Serious medical condition	7%	Single female parent	14%
Families with PWSN	32%		

Protection

% of households reporting their perception of the current security situation in the camp⁴:

1. UNHCR, Bangladesh: UNHCR Camp Settlement and Protection Profiling - Round 3, Apr 2018. <http://bit.ly/2LRI49D>
 2. The boundaries and names used on this map do not imply official endorsement or acceptance by the United Nations
 3. RRRC/UNHCR population data and key demographical indicators (15 Nov 2018 dataset)
 4. Round 4 data only. This indicator was not present in SPP Round 3

Settlement and Protection Profiling - Camp 10

December and April 2018 trend comparison

Top five interventions reported as needing to change or improve in order to improve the sense of safety and security in the camps⁵:

Dec 2018			Apr 2018
94%	Improved roads/paths	1	Site improvement 42%
63%	Better camp management	2	Permission to move freely 39%
48%	Advice from UN/NGOs	3	Legal assistance 35%
27%	Disaster warning systems	4	More police / military 26%
22%	Street signs	5	Nothing 25%

Top 3 main risks reported to be faced by adult men and women in the camp^{5,6,7}:

Men			Women
44%	Armed group recruitment	1	Human trafficking 35%
40%	Kidnapping	2	Kidnapping 35%
27%	Natural disasters	3	Natural disasters 33%

Top 3 preferred sources of help reported for various forms of security incidents^{6,8}:

	Involving self or family with persons inside the camps	Involving self or family with persons outside the camp	Witness to security incident within the camps
1	Mahji 96%	CiC 86%	Mahji 97%
2	CiC 62%	Mahji 81%	CiC 68%
3	Army 31%	Army 30%	Army 32%

Food Security

Food assistance

Dec 2018		Apr 2018
91%	of households reported accessing food assistance in the 30 days prior to data collection. Of these, the most common sources were ⁸ :	99%
	WFP / Humanitarian actors	100% / 99%
	Bangladesh army	1% / 1%
	Private donations	14% / N/A
	Other	0% / N/A

Consumption-based coping strategies

Top 3 most commonly reported consumption-based coping strategies⁸:

Dec 2018		Apr 2018
77%	Borrow food	1 43%
55%	Eat less preferred food	2 22%
44%	Limit portion size	3 5%

Infant nutrition

Dec 2018		Apr 2018
84%	of households with children under 5 reported receiving a supplementary feeding ration for children under 5 in the 30 days prior to data collection	40%
9%	of households reported receiving a breast-milk substitute donation since arriving in Bangladesh ⁹	5%

Water Sanitation and Hygiene

Water treatment

Dec 2018		Apr 2018
76%	of households reported treating water	20%
40%	of households reported using chlorination tablets (Aquatabs)	12%

Water sources

% of households reporting their main source of drinking water:

Dec 2018		Apr 2018
99%	Tubewell/borehole	84%
0%	Piped water	16%
0%	Tanker truck	0%
0%	Rainwater	0%
0%	Surface water	N/A
0%	Protected dugwell	N/A
0%	Unprotected dugwell	N/A
0%	Protected spring	N/A
1%	Water tank	N/A
0%	Cart w small drum	N/A

Hygiene practices

Dec 2018		Apr 2018
80%	of households reported having access to soap	67%
75%	of households reported using public latrines as the usual facility for defecation	35%

7. These results are based on the respondent's subjective perception of risks in the camp, and not the actual number of security incidents

8. Respondents could select multiple options

9. In April data collection, this was asked to every household. In December data collection, this was asked only to households reporting children under 5 in the household.

5. Respondents could give up to three answers
6. Round 4 data only. This indicator was not present in SPP Round 3

Settlement and Protection Profiling - Camp 10

December and April 2018 trend comparison

Latrines

Top three reported issues with latrines¹⁰:

Dec 2018								Apr 2018
Too many people	65%	1	59%	Not enough				
Too far	38%	2	41%	Unclean				
No gender separation	38%	3	40%	Full				

1.2.3 Priority Needs

Top 3 reported first, second and third priority needs^{11,12}:

	First priority need	Second priority need	Third priority need
1	Fuel 50%	Clothing 34%	Clothing 25%
2	Access to food 38%	Fuel 18%	Household/ cooking items 21%
3	Clothing 7%	Access to food 15%	Access to food 17%

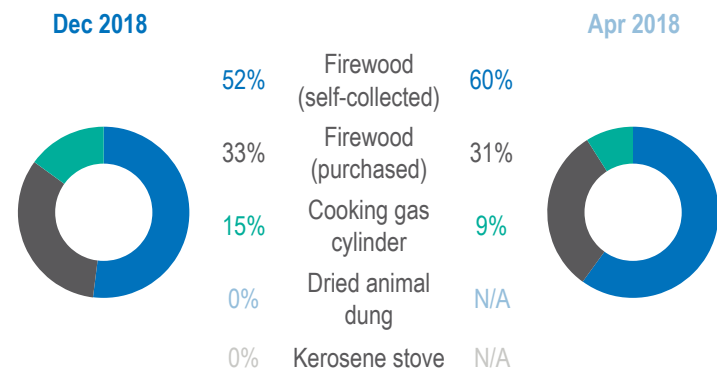

Shelter

Dec 2018		Apr 2018
73%	of households reported living in shelters made of bamboo and plastic sheeting	78%
71%	of households reported living in lockable shelters	36%
25%	of households reported living in shared shelters	51%

Non-Food Items (NFIs)

Fuel

% of households reporting their main source of fuel:

Dec 2018		Apr 2018
98%	of households reported cooking inside their shelter	96%
64%	of households reported receiving NFI kits since arriving in Bangladesh	95%

10. Respondents could select multiple options
 11. Respondents could give up to three answers
 12. Round 4 data only. This indicator was not present in SPP Round 3.

Top 3 most important forms of assistance reported as needed to address household shelter needs^{11,12}:

Health

Top 3 reported concerns about healthcare in the camp^{11,12}:

Communication with Communities

Sources of information

Top 3 reported preferred methods of communication¹²:

Site Management

3% of households reported they face barriers in accessing assistance in the camps¹⁰. Of these households, the most common assistance types that households face barriers accessing are^{10,12}:

Education

82% of households reported they are satisfied with the education available in the camps¹¹

Top 3 education priorities for children^{10,12}:
