

# Settlement and Protection Profiling

Camp 17 Ukhia, Cox's Bazar, Bangladesh

Nov / Dec 2018

December and April 2018 trend comparison

## Background and methodology

This profile provides a multi-sector overview of conditions in the Rohingya sites in Cox's Bazar District, Bangladesh to offer insights on the evolving protection needs of refugees living in the camps. Data for the findings was collected in 33 camps from 25 November - 17 December, 2018 for the fourth round of Settlement and Protection Profiling (SPP) funded by UNHCR and implemented by REACH. Key indicators provide contextual and operational findings at the household level. Findings are compared to those of SPP Round 3 which took place from 7-27 March and 15-20 April, 2018<sup>1</sup>. Translators Without Borders supported with translating the form into Rohingya.

Primary data was collected through household surveys randomly sampled from shelters located within 33 settlement boundaries. Results of this assessment are generalizable with 95% confidence level and 10% margin of error at the camp level. This factsheet presents an analysis of data collected in Camp 17, where 96 households were surveyed.

The Round 3 form was translated into Bangla then verbally translated into Rohingya by enumerators, while the Round 4 form was translated directly into Rohingya. It is therefore possible that potential differences in communicating questions between Round 3 and 4 may affect comparisons where relevant. Data collection began one week after an attempted repatriation to Myanmar, thus some eligible households chose not to participate out of fear of sharing detailed information. This fear may have created a bias towards those respondents who were willing to participate in this assessment. The non-response rate was 5%.

November/December 2018 data is presented in **dark blue**, and March/April 2018 data is presented in **light blue**.

## Key Camp Information

Camp Management Agency	RRRC
Site Management Support Agency	UNHCR / ACTED
Population (individuals) <sup>3</sup>	15,472
Population (families) <sup>3</sup>	3,649
Camp Area	0.95 km <sup>2</sup>
Population density	16,216 individuals/km <sup>2</sup>

## Demographics

### Household composition by gender and age

**54%** of individuals are under 18

**76%** of individuals are women and children

### Period of arrival<sup>3</sup>

**94%** of households arrived 25 August 2017 or later

### Household size

Number of individuals per household:

There is an average of **4.7** individuals reported per household

### Persons with Specific Needs (PWSN)

% of families with Persons with Specific Needs (PWSN), by need<sup>3</sup>

Separated children	3%	Unaccompanied children	1%
Older person at risk	4%	Person with disability	4%
Older person at risk and children	2%	Single male parent with infants	1%
Serious medical condition	3%	Single female parent	19%
Families with PWSN	33%		

## Protection

% of households reporting their perception of the current security situation in the camp<sup>4</sup>:

1. UNHCR, Bangladesh: UNHCR Camp Settlement and Protection Profiling - Round 3, Apr 2018. <http://bit.ly/2LRI49D>  
 2. The boundaries and names used on this map do not imply official endorsement or acceptance by the United Nations  
 3. RRRC/UNHCR population data and key demographical indicators (15 Nov 2018 dataset)  
 4. Round 4 data only. This indicator was not present in SPP Round 3

# Settlement and Protection Profiling - Camp 17

December and April 2018 trend comparison

Top five interventions reported as needing to change or improve in order to improve the sense of safety and security in the camps<sup>5</sup>:

Dec 2018			Apr 2018
61%	Improved roads/paths	1	Site improvement 43%
50%	Disaster warning systems	2	Warning systems 40%
43%	Advice from UN/NGOs	3	Permission to move freely 28%
23%	Increased policing	4	Legal assistance 22%
20%	Better camp management	5	More police / military 20%

Top 3 main risks reported to be faced by adult men and women in the camp<sup>5,6,7</sup>:

Men			Women
57%	No issues	1	No issues 46%
35%	Other	2	Kidnapping 39%
28%	Kidnapping	3	Natural disasters 38%

Top 3 preferred sources of help reported for various forms of security incidents<sup>6,8</sup>:

	Involving self or family with persons inside the camps	Involving self or family with persons outside the camp	Witness to security incident within the camps
1	Mahji 97%	Mahji 94%	Mahji 91%
2	CiC 33%	CiC 55%	CiC 54%
3	Army 17%	Army 24%	Army 28%

## Food Security

### Food assistance

Dec 2018		Apr 2018
95%	of households reported accessing food assistance in the 30 days prior to data collection. Of these, the most common sources were <sup>8</sup> :	84%
99%	WFP / Humanitarian actors	99%
4%	Bangladesh army	12%
2%	Private donations	N/A
0%	Other	N/A

## Consumption-based coping strategies

Top 3 most commonly reported consumption-based coping strategies<sup>8</sup>:

Dec 2018		Apr 2018
77%	Eat less preferred food	62%
62%	Limit portion size	4%
57%	Borrow food	4%

## Infant nutrition

Dec 2018		Apr 2018
77%	of households with children under 5 reported receiving a supplementary feeding ration for children under 5 in the 30 days prior to data collection	15%
7%	of households reported receiving a breast-milk substitute donation since arriving in Bangladesh <sup>9</sup>	4%

## Water Sanitation and Hygiene

### Water treatment

Dec 2018		Apr 2018
61%	of households reported treating water	15%
40%	of households reported using chlorination tablets (Aquatabs)	0%

### Water sources

% of households reporting their main source of drinking water:

Dec 2018		Apr 2018
89%	Tubewell/borehole	90%
2%	Piped water	10%
0%	Tanker truck	0%
0%	Rainwater	0%
0%	Surface water	N/A
0%	Protected dugwell	N/A
0%	Unprotected dugwell	N/A
1%	Protected spring	N/A
8%	Water tank	N/A
0%	Cart w small drum	N/A

### Hygiene practices

Dec 2018		Apr 2018
82%	of households reported having access to soap	40%
73%	of households reported using public latrines as the usual facility for defecation	72%

7. These results are based on the respondent's subjective perception of risks in the camp, and not the actual number of security incidents

8. Respondents could select multiple options

9. In April data collection, this was asked to every household. In December data collection, this was asked only to households reporting children under 5 in the household.

5. Respondents could give up to three answers  
6. Round 4 data only. This indicator was not present in SPP Round 3

# Settlement and Protection Profiling - Camp 17

## December and April 2018 trend comparison

### Latrines

Top three reported issues with latrines<sup>10</sup>:

<b>Dec 2018</b>					<b>Apr 2018</b>
Too many people	55%	1	36%	Not enough	
Too far	35%	2	34%	Lack of privacy	
Not clean	19%	3	34%	Lack of separation	

### 1.2.3 Priority Needs

Top 3 reported first, second and third priority needs<sup>11,12</sup>:

	First priority need	Second priority need	Third priority need
1	Access to food 50%	Clothing 38%	Clothing 28%
2	Clothing 18%	Household/ cooking items 29%	Access to food 23%
3	Shelter materials 11%	Shelter materials 11%	Household/ cooking items 15%

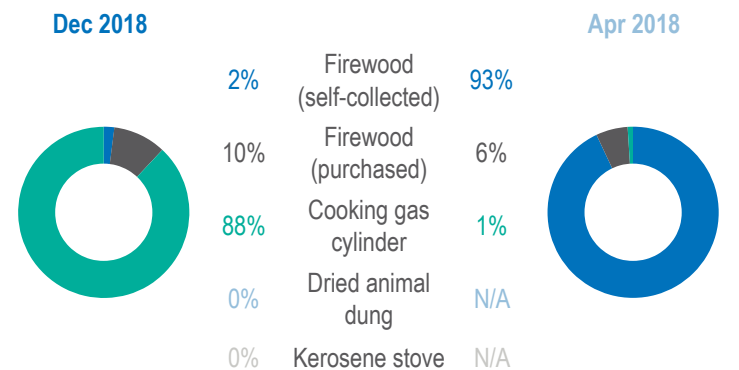

### Shelter

<b>Dec 2018</b>		<b>Apr 2018</b>
42%	of households reported living in shelters made of bamboo and plastic sheeting	69%
94%	of households reported living in lockable shelters	75%
9%	of households reported living in shared shelters	41%

### Non-Food Items (NFIs)

#### Fuel

% of households reporting their main source of fuel:

<b>Dec 2018</b>		<b>Apr 2018</b>
100%	of households reported cooking inside their shelter	90%
91%	of households reported receiving NFI kits since arriving in Bangladesh	82%

10. Respondents could select multiple options  
 11. Respondents could give up to three answers  
 12. Round 4 data only. This indicator was not present in SPP Round 3.

Top 3 most important forms of assistance reported as needed to address household shelter needs<sup>11,12</sup>:

1	Clothing	83%
2	NFIs	62%
3	Cooking items	51%

### Health

Top 3 reported concerns about healthcare in the camp<sup>11,12</sup>:

1	Treatment unavailable	54%
2	Supplies unavailable	53%
3	Clinic too far	29%

### Communication with Communities

#### Sources of information

Top 3 reported preferred methods of communication<sup>12</sup>:

1	Face-to-face	81%	
	Face to face	86%	Dec 2018
2	Loudspeakers	76%	
	Loudspeakers	61%	Apr 2018
3	Phone call	64%	
	Phone call	17%	

### Site Management

3% of households reported they face barriers in accessing assistance in the camps<sup>10</sup>. Of these households, the most common assistance types that households face barriers accessing are<sup>10,12</sup>:

1	WASH	67%
2	Food	33%
3	NFIs	33%

### Education

85% of households reported they are satisfied with the education available in the camps<sup>11</sup>

Top 3 education priorities for children<sup>10,12</sup>:

1	Better teachers	56%
2	Improved curriculum	48%
3	Religious education	48%
