

Annex 1: Data analysis plan, Needs Assessment Key Informant Question Route

Ar-Raqqa City ABA: Needs assessment KI question route, January 2019

Group	Q #	Indicator	Question	Type	Options	Constraints	Relevance	Hint	Data collection level	Aggregation / Disaggregation
1. Basic information	1.1	Enumerator code	Enter enumerator code	Integer					N/A	N/A
	1.2	KI profession	Enter KI profession	Text					N/A	N/A
	1.3	KI gender	Enter KI gender	Select one	Female; Male				N/A	N/A
	1.4	KI age	Select KI age range	Select one	18-26; 27-45; 46-64; 65+				N/A	N/A
	1.5	KI phone number	Enter KI phone number	Text					N/A	N/A
	1.6	Neighbourhood of knowledge	Please enter the name of the neighbourhood for which you have knowledge.	Select one	Neighbourhood list				Neighbourhood	Neighbourhood level
	1.7	Neighbourhood access in the past month	Which of the following best describes your overall access level to the neighbourhood in the past month?	Select one	Visited neighbourhood once Visited neighbourhood multiple times Permanently live in the neighbourhood Have not visited the neighbourhood	Greater than 17			Neighbourhood	Neighbourhood level
2. Demographics and movement	2.1	Neighbourhood population estimate unit	Are you more able to provide an accurate estimate for the number of households living in the neighbourhood, the number of individuals living in the neighbourhood, or both?	Select one	Households (families); Individuals; Both households and individuals			A household is defined by individuals who consistently live together and share resources and earned income, and are typically family units,	Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

							but it's not necessary.		
2.2	# of households residing in the neighbourhood	How many households are currently living in this neighbourhood?	Integer	Minimum; Maximum; Best guess;		Selected "Households" or "Both households and individuals" for 2.1	Please show the person you are interviewing the map and go through with him/her the boundaries of the neighbourhood. Make sure these are understood by the interviewee.	Neighbourhood	Neighbourhood level
2.3	# of individuals residing in the neighbourhood	How many individuals are currently living in this neighbourhood?	Integer	Minimum; Maximum; Best guess;		Selected "Individuals" or "Both households and individuals" for 2.1	Please show the person you are interviewing the map and go through with him/her the boundaries of the neighbourhood. Make sure these are understood by the interviewee.	Neighbourhood	Neighbourhood level
2.4	Most common profiles of households currently living in the neighbourhood	What are the three most common profiles of households who are living in the neighbourhood?	Rank up to three	Single males; widows with children; widows without children; households with husbands temporarily away; Married males staying in the city without their family; Married females staying in			Rank up to three choices.	Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

				the city without their family; Couples staying in the city without their children; Entire households staying in the city together; Other (specify); Not sure					
2.5	% of population by age group	What percentage of the current neighbourhood population falls into the following categories:	Integer	5 and under: __% 6 to 17: __% 18 to 59: __% 60 and older: __% Not sure	Entered values must equal 100.			Neighbourhood	Neighbourhood level
2.6	Neighbourhoods within the city that are accessible by foot	Are civilians able to move on foot within the neighbourhood?	Select one	Yes with ease and few obstacles; Yes but with some difficulty and some obstacles; Yes but with major difficulty and many obstacles; No; Not sure			Read all options to the respondent	Neighbourhood	Neighbourhood level
2.6.1	Obstacles to movement by foot	What obstacles prevent civilians from moving by foot within the neighbourhood?	Text			Selected "yes but with some difficulty and some obstacles" or "yes but with major difficulty and many obstacles" or "no" for 2.6	Please specify the obstacles.	Neighbourhood	Neighbourhood level
2.7	Neighbourhoods within the city that are accessible by small vehicles	Are civilians able to access areas of the neighbourhood with small vehicles (cars, vans, motorcycles)?	Select one	Yes with ease and few obstacles; Yes but with some difficulty and some obstacles; Yes but with major difficulty and many obstacles; No; Not sure			Read all options to the respondent	Neighbourhood	Neighbourhood level
2.7.1	Obstacles to movement in the neighbourhood with small vehicles	What obstacles prevent civilians from accessing areas of the neighbourhood with small vehicles (cars, vans)?	Text			Selected "yes but with some difficulty and some obstacles"	Please specify the obstacles.	Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

						or "yes but with major difficulty and many obstacles" or "no" for 2.6			
2.8	Neighbourhoods within the city that are accessible by large vehicles	Are civilians able to access areas of the neighbourhood with large vehicles (trucks, buses)?	Select one	Yes with ease and few obstacles; Yes but with some difficulty and some obstacles; Yes but with major difficulty and many obstacles; No; Not sure			Read all options to the respondent	Neighbourhood	Neighbourhood level
2.8.1	Obstacles to movement in the neighbourhood with large vehicles	What obstacles prevent civilians from accessing areas of the neighbourhood with large vehicles (trucks, buses)?	Text			Selected "yes but with some difficulty and some obstacles" or "yes but with major difficulty and many obstacles" or "no" for 2.6	Please specify the obstacles.	Neighbourhood	Neighbourhood level
2.9	Main barriers to movement within the city	Which of the following are barriers to movement present within the neighbourhood?	Select multiple	Read blocks rubble/debris blocking roads; damaged roads; Mines or UXOs; Presence of armed actors; Curfews / official movement restrictions; Other (specify); None	Cannot select "None" with any other answer		These barriers can hinder movement to either vehicles or pedestrians.	Neighbourhood	Neighbourhood level
2.9.1.	Other barrier to movement	Other (please specify):	Text			Selected "other" in 2.9		Neighbourhood	Neighbourhood level

3. Food	3.1	Most common sources of food accessed by residents of the neighbourhood in the past two weeks	What were the three most common sources of food accessed by people living in this neighbourhood in the past two weeks?	Select up to three	Purchasing from stores/markets in this neighbourhood; Purchasing from stores/markets in other neighbourhoods; Own production/farming; Relying entirely on food stored from previous weeks/months for emergencies; Assistance from local councils / NGOs / other groups; Gifts from family/friends; Begging/bartering; Borrowing; Hunting/gathering/catching; Other (specify); Not sure	"Not sure" cannot be selected with any other option			Neighbourhood	Neighbourhood level
	3.2	Availability of core food items in the neighbourhood in the past two weeks	In the past two weeks, what was the availability of the following food items in markets in the neighbourhood? Bread Rice Flour Lentils Cooking oil Sugar Meat Chicken Tomatoes Cucumbers Onions	Select one	Always/almost always available; Sometimes available; Not available; Not sure		Bread Rice Flour Lentils Cooking oil Sugar Meat Chicken Tomatoes Cucumbers Onions	الرز الطحين العدس زيت الطبخ السكر اللحم الدجاج الطماطم الخبز البصل	Neighbourhood	Neighbourhood level
	3.3	Affordability of core food items in the neighbourhood in the past two weeks	For each item that was available, please indicate if it was affordable	Select one	Affordable for the majority of people; Not affordable for the majority of people		Question only appears if "Always/Almost	Affordable - are the items cheap enough for households	Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

						always available" or "Sometimes available" selected for 3.2	to regularly purchase items when they are needed		
3.4	Functionality of food markets in the neighbourhood in the past two weeks	Were there any problems with the functionality of food markets in the neighbourhood in the past two weeks?	Select multiple	<p>Markets were functioning with no problems;</p> <p>Markets were not functioning in the community;</p> <p>Markets were functioning but only at certain / unpredictable times;</p> <p>Markets were functioning but with insufficient quantities of food;</p> <p>Markets were functioning but quality of food was poor;</p> <p>Markets were functioning and food was available, but food prices were too high;</p> <p>Other (specify);</p> <p>Not sure</p>	"Markets were functioning with no problems" cannot be selected with any other option; "Not sure" cannot be selected with any other option		Food markets includes any shop selling food items, such as small shops, supermarkets, traditional markets.	Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

	3.5	Barriers to accessing food markets in the neighbourhood in the past two weeks	What challenges, if any, have there been in accessing food markets in the neighbourhood in the past two weeks?	Select multiple	<p>No challenges; Physical constraints preventing access to markets (e.g. roads damaged, blockages); Lack of transportation to markets (private or public); Certain population groups unable to access markets; Distance to functioning markets too far; Safety or security constraints restricting movement to markets; Safety or security concerns at markets; Lack of access for persons with restricted mobility; Lack of access / unsuitable for women; No functioning markets in the neighbourhood; Lack of cash to buy food; Other (specify); Not sure</p>	"No challenges" cannot be selected with any other option; "Not sure" cannot be selected with any other option	Applies only if "markets were not functioning in the community" was not selected.		Neighbourhood	Neighbourhood level
	3.6	Barriers to markets opening in the neighbourhood in the past two weeks	What have been the main barriers to markets opening in this neighbourhood in the past two weeks?	Select one	<p>Markets are too damaged to reopen; Not enough customers/residents for markets to reopen; Markets unable to restock due to lack of supply routes; Lack of places to store food; lack of sufficient electricity; Other (please specify); None; Not sure</p>				Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

3.7	Food groups accessed in other neighbourhoods	<p>Have households from this neighbourhood visited other neighbourhood(s) or left the city as a primary means to access the following food groups in the past two weeks?</p> <p>Meat and fish Fruits and vegetables Milk and dairy Bread Staples (rice, bulghur wheat etc.)</p>	Select multiple	List of neighbourhoods & outside the city and none	"None" cannot be selected with any other option	(This question is not asking if the households permanently left the city, only if they went to other neighbourhoods or visited areas outside of the city to access these food groups.)	Neighbourhood	Neighbourhood level	
INSERT LOOP for each food group noted in 3.7 for which "outside the city" was selected									
3.7.1	Location of food source outside the city	Where outside of Ar-Raqqa city were residents from this neighbourhood going to access [food group specified in 3.7] in the past two weeks?	Text			"Outside the city" was selected for 3.7	Please specify the location outside of the city that residents travel to in order to access this food group.	Neighbourhood	Neighbourhood level
END LOOP									
Food assistance note		Food assistance note	Read only	The following questions about food assistance include all types of food except for bread.				Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

3.8	# of neighbourhoods receiving food assistance in the past two weeks	Did people living in this neighbourhood receive food assistance of any kind from any sources over the last 30 days ?	Select one	Yes; No; Not sure			This includes if the assistance was distributed in this neighbourhood or in other neighbourhoods.	Neighbourhood	Neighbourhood level
3.9	Types of food assistance received by households of the neighbourhood in the past two weeks	What type of food assistance was received?	Select multiple	Pre-prepared meals (RTER - ready to eat rations); Standard WFP food baskets; Dry food rations; Hot meals (freshly cooked on-site); Voucher; Cash; Other (specify)		Selected "Yes" for 3.7	Do not include bread assistance	Neighbourhood	Neighbourhood level
INSERT LOOP for each option selected for 3.9									
3.9.1	Location of food assistance received by households in the neighbourhood in the past two weeks	Was the food assistance that residents of this neighbourhood received in the last 30 days distributed in this neighbourhood?	Select one	Yes; No; Not sure				Neighbourhood	Neighbourhood level
3.9.2	Other neighbourhoods where food assistance was received by households in the neighbourhood in the past two weeks	In which neighbourhood was the assistance provided?	Select multiple	Neighbourhood list and outside city		Selected "No" for previous question		Neighbourhood	Neighbourhood level
3.9.2.1	Location of food assistance outside the city	Where outside of Ar-Raqqa city were residents from this neighbourhood going to access this type of food assistance in the last 30 days?	Text			"Outside the city" was selected for 3.9.2	Please specify the location outside of the city that residents travel to in order to access this	Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

							food assistance.		
3.9.3	Type of organisations to deliver food assistance to households of the neighbourhood in the past two weeks	Which type of organisation provided the assistance?	Select multiple	Organised neighbourhood group; Local council; Local NGO; International NGO; International agency; Other (specify); Not sure	"Not sure" cannot be selected with any other option		An international NGO refers to an individual private NGO that operates internationally (e.g. Oxfam), while an international agency is affiliated with a foreign government or the UN (e.g. UNICEF)	Neighbourhood	Neighbourhood level

						other option			
3.1 5	Other source of bread for households in the past two weeks	Other (please specify):	Text			Selected "other" for 3.12	Please specify the other source of bread for households in the neighbourhood in the last two weeks.	Neighbourhood	Neighbourhood level
3.1 6	Sufficiency of bread supply from bakeries / shops selling bread in the neighbourhood in the past two weeks	Were the bakeries or shops in the neighbourhood producing sufficient and affordable quantities of bread to meet the needs of the neighbourhood in the past two weeks?	Select one	Yes, they were producing sufficient amounts of bread at an affordable price; No, they were producing sufficient quantities of bread but it was too expensive for households in the neighbourhood; No, they were producing some bread but not enough to provide for the needs of the neighbourhood; Not sure		"Public bakeries in the neighbourhood" OR "Private bakeries in the neighbourhood" OR "Shops in the neighbourhood" for 3.11		Neighbourhood	Neighbourhood level
3.1 7	Other neighbourhoods where bread was accessed in the past two weeks	Which other neighbourhood(s) have households from this neighbourhood visited as a primary means to access bread in the past two weeks?	Select multiple	Neighbourhood list and outside of city and none		Selected "Bakeries/ shops outside of the neighbourhood" for 3.11		Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

3.18	Location of food bread access outside the city	Where outside of Ar-Raqqa city were residents from this neighbourhood going to access bread in the past two weeks?	Text			"Outside the city" was selected for 3.14	Please specify the location outside of the city that residents travel to in order to access this bread.	Neighbourhood	Neighbourhood level
3.19	Receipt of bread assistance by households in the neighbourhood in the past two weeks	Did households from this neighbourhood receive any bread distributions in the past two weeks?	Select one	Yes; No; Not sure			This question applies to bread distributions that took place in any neighbourhood of the city	Neighbourhood	Neighbourhood level
3.20	Location of bread distribution received by households in the neighbourhood in the past two weeks	Did the bread distribution take place in this neighbourhood?	Select one	Yes; No; Not sure		Selected "Yes" for 3.15		Neighbourhood	Neighbourhood level
3.21	Other neighbourhoods where bread assistance was received by households in the neighbourhood in the past two weeks	In which other neighbourhood was the assistance provided?	Select multiple	Neighbourhood list, outside of city, and none/NA	"None" cannot be selected with any other option	Selected "No" for 3.14		Neighbourhood	Neighbourhood level
3.22	Sources of bread distribution	Which type of organisation provided the assistance?	Select multiple	Organised neighbourhood group; Local council; Local NGO; International NGO; International agency; Other (specify); Not sure	"Not sure" cannot be selected with any other option	Selected "Yes" for 3.15	An international NGO refers to an individual private NGO that operates internationally (e.g. Oxfam), while an international agency is	Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

							affiliated with a foreign government or the UN (e.g. UNICEF)		
3.2	Frequency of bread distributions received by households of the neighbourhood in past two weeks	On how many days was this assistance provided over the past two weeks?	Select one	1 - 3; 4 - 6; 7 - 9; 10 - 12; 13 - 14; Not sure		Selected "Yes" for 3.15		Neighbourhood	Neighbourhood level
4.1	Income sources	What are the most common sources of income for <u>households</u> in the neighbourhood?	Rank top 3	Humanitarian aid; Remittances; Fishing; Growing crops; Raising livestock; day labour (construction); Producing/selling fuel; seasonal agricultural migration; Skilled trades (mechanics, teachers, pharmacists, etc.); Gathering firewood; Trade/shops; Employment with local authorities; Armed groups; Other (specify); Not sure				Neighbourhood	Neighbourhood level
4.2	Proportion of adult population engaging in income generating activity	How much of the adult population in the neighbourhood are engaging in income generating activities (jobs)? Men (18-59 years old) Women (18-59 years old)	Select one	Almost all (76-100%), majority (51-75%), half (50%), less than half (26-49%), none or very few (0-25%); Not sure			Income generating activities are sources of income / jobs and does NOT include income from humanitarian assistance, remittances, private donations or from religious organisations		

Northeast Syria Area-Based Assessments, January 2019

4.3	Average amount of income	What is the average amount of income for households in the neighbourhood per month?	Select one	Less than 50,000 SYP; 50,000 - 100,000 SYP; 100,000 - 150,000 SYP; Above 150,000 SYP			Neighbourhood	Neighbourhood level
4.4	% households able to sustain themselves through their income sources	Approximately, how many households are able to cover their basic needs through these income sources?	Select one	Almost all households are able to support themselves through their income sources (76-100%); majority of households are able to support themselves through their income sources (51-75%); half of all households are able to support themselves through their income sources (50%); less than half of households (26-49%) are able to support themselves through their income sources; none or very few households are able to support themselves through their income sources (0-25%); Not sure			Neighbourhood	Neighbourhood level
4.5	Main challenges to livelihoods	What are the primary challenges to livelihoods in the neighbourhood?	Rank top 3	Unemployment; high cost of labour; high cost of productive inputs; security situation; damage to infrastructure; no skilled labour; none; other (specify)			Neighbourhood	Neighbourhood level
4.6		Specify other	text					
4.7	Women seek employment	Do women actively seek employment in your neighbourhood?	Select one	Yes; No; Not sure				
4.8	Type of employment women seek	If yes, what kind of employment / income bringing activities do they seek?	Rank top 3	Wage labour; tailoring; seasonal agricultural migration; employment with local authorities; working as maid/servant; begging; other (specify)		If selected 'Yes' in 4.5		
4.9		Specify other	text					

Northeast Syria Area-Based Assessments, January 2019

	4.10	Main livelihoods based coping strategies	What are the most common coping strategies used by households in the neighbourhood to cope with the lack of income/resources?	Rank top 3	No coping strategies used; Receive donations from relatives, the community or religious organization; Sell household items or assets; Send children (15 or below) to work; Borrow money from family or friends' Buying on credit with shop owners; High risk/illegal work; Skip rent; Limit food portions/skip meals; Other (specify); Not sure				Neighbourhood	Neighbourhood level
	4.11		Specify other	text						
4. Nutrition	5.1	# of neighbourhoods receiving infant formula distributions in the past two weeks	Have households in this neighbourhood received any infant formula distributions in the last 30 days (infant milk products, powder milk not specific for babies, baby bottles, teats etc.)?	Select one	Yes, No, Not sure				Neighbourhood	Neighbourhood level
	5.2	Infant formula distribution types in the past two weeks	Which of the following infant formula items were distributed?	Select multiple	Infant milk products; Baby bottles; Teats; Powder milk not specific for babies; Other (specify)		Selected "Yes" for 3.16		Neighbourhood	Neighbourhood level
	5.3	Location of infant formula distributions received by households in the neighbourhood in the past two weeks	Were the infant formula distributions in this neighbourhood?	Select one	Yes; No; Not sure		Selected "Yes" for 3.16		Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

5.4	Other neighbourhoods where infant formula distributions was received by households in the neighbourhood in the past two weeks	In which other neighbourhood was the infant formula distribution provided?	Select multiple	Neighbourhood list, outside of city, and none/NA	"None" cannot be selected with any other option	Selected "No" for 3.16.2		Neighbourhood	Neighbourhood level
5.5	Location of infant formula distribution outside the city	Where outside of Ar-Raqqa city were residents from this neighbourhood going to access infant formula distributions in the last 30 days ?	Text			"Outside the city" was selected for 3.16.3	Please specify the location outside of the city that residents travel to in order to access infant formula distributions.	Neighbourhood	Neighbourhood level
5.6	Organisations delivering infant formula assistance in the past two weeks	Who provided this infant formula support?	Select multiple	Organised neighbourhood group; Local council; Local NGO; International NGO; International agency; Other (specify); Not sure	"Not sure" cannot be selected with any other option	Selected "Yes" for 3.16		Neighbourhood	Neighbourhood level
5.7	Frequency of infant formula distribution in the past two weeks	On how many days was the distribution provided over the past two weeks?	Select one	1 - 3; 4 - 6; 7 - 9; 10 - 12; 13 - 14; Not sure		Selected "Yes" for 3.16		Neighbourhood	Neighbourhood level
5.8	Sources of support for feeding infants	Where do most mothers in the neighbourhood seek advice on feeding infant children (under 2 years old)?	Select multiple	Family and relatives; Physician, nurse, or pharmacist; Other (specify); Not sure	"Not sure" cannot be selected with any other option			Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

	5.9	# of neighbourhoods with children showing signs of malnutritions in the past two weeks	In the past two weeks, what proportion of children living in the neighbourhood (under the age of 5 years old) have shown signs of malnutrition?	Select one	All or almost all children; More than half of children; Around half of children; Less than half of children; A few or no children; Not sure			Signs of malnutrition include: thin, prominent ribs, visible weight loss or Oedema (swelling of the feet), scarce/thin hair	Neighbourhood	Neighbourhood level
	5.10	# of neighbourhoods with adults showing signs of malnutrition in the past two weeks	In the past two weeks, what proportion of adults living in the neighbourhood have shown signs of malnutrition?	Select one	All or almost all adults; More than half of adults; Around half of adults; Less than half of adults; A few or no adults; Not sure			Signs of malnutrition include: thin, prominent ribs, visible weight loss or Oedema (swelling of the feet), scarce/thin hair	Neighbourhood	Neighbourhood level
5. Cash	6.1	# of neighbourhoods with functioning hawala systems in the past two weeks	Were hawala systems functioning in the neighbourhood over the past two weeks?	Select one	Yes; No; Not sure			Select "yes" if any hawala services at all were provided in the neighbourhood in the past two weeks	Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

6.2	Functional status of hawala systems in the neighbourhood in the past two weeks	Were there any problems with the functionality of the hawala systems in the neighbourhood in the past two weeks?	Select multiple	Hawala systems were functioning with no problems; Hawala systems were functioning but only at certain / unpredictable times; Hawala systems were functioning but only certain population groups could access them; Hawala systems were functioning but with insufficient quantities of cash; Hawala systems were functioning and cash was available, but costs of services were too high; Other (specify); Not sure	"Hawala systems were functioning with no problems" cannot be selected with any other option; "Not sure" cannot be selected with any other option	Selected "Yes" for 4.1		Neighbourhood	Neighbourhood level
6.3	# of neighbourhoods with households travelling elsewhere to access hawala services in the past two weeks	Did households in this neighbourhood travel to other areas of the city to access hawala services in the past two weeks?	Select one	Yes; No; Not sure				Neighbourhood	Neighbourhood level
6.4	Other neighbourhoods accessed for hawala services in the past two weeks	Which other neighbourhoods in the city did households from this neighbourhood travel to in order to access hawala services?	Select multiple	Neighbourhood list, outside of city, and none/NA	"None" cannot be selected with any other option	Selected "Yes" for 4.3		Neighbourhood	Neighbourhood level
6.5	Location of hawala services accessed outside the city in past two weeks	Where outside of Ar-Raqqa city were residents from this neighbourhood going to access hawala services in the past two weeks?	Text			"Outside the city" was selected for 4.4	Please specify the location outside of the city that residents travel to in order to access	Neighbourhood	Neighbourhood level

							hawala services.		
7. Shelter	7.1	Most common shelter types used by households in the neighbourhood in the past two weeks	What are the most common shelter types used by households in the neighbourhood in the past two weeks?	Rank up to three	None, the neighbourhood is entirely abandoned; Owned homes / apartments; Rented homes / apartments; Living in abandoned home (someone else's home, and not paying rent); Collective centres (schools, mosques, private housing, other); Shared accommodation with host population; Unfinished buildings; Tents or informal settlements; Other (Specify); Not sure			Neighbourhood	Neighbourhood level
	7.2	% of households living in shared or overcrowded housing	What proportion of households in the neighbourhood are living in shared or overcrowded housing? (e.g. multiple families sharing a house, families living in a house built for a smaller family)	Select one	Almost all households (76-100%), majority of households (51-75%), half of all households (50%), less than half of households (26-49%), none or very few households (0-25%); Not sure		Read out all options	Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

7.3	% of households living in damaged shelters	<p>What proportion of households in the neighbourhood do you estimate are living in buildings with the following damage categories?</p> <p>Minor damage (Cracks in walls, leaking roof, need of new doors & window repairs, etc.); Major damage (Extensive damage to window frames and doors, but no structural damage to columns, slabs, or loadbearing walls); Severe damage (Significant structural damage to columns, slabs, or loadbearing walls, cracking, roof partially collapsed, steel elements and deformations visible in concrete - building requires extensive repairs); No damage</p>	Select one	Almost all households (76-100%), majority of households (51-75%), half of all households (50%), less than half of households (26-49%), none or very few households (0-25%); Not sure			Read out all options. This question is asking about the building the households are living in and not the apartment they are living in	Neighbourhood	Neighbourhood level
7.4	Extent of shelter damage in neighbourhood	Of the following options, which is the most accurate description of the extent of shelter damage in this neighbourhood?	Select one	There is no damage; Minor damage (most houses have limited damage to walls, doors, windows); Major damage (most houses have significant damage and require extensive repairs); Destroyed (most houses that have been destroyed and cannot be repaired); not sure				Neighbourhood	Neighbourhood level
7.5	# of neighbourhoods with shelter reconstruction in the past two weeks	Were any of the destroyed shelters in the neighbourhood being reconstructed in the past two weeks?	Select one	Yes; No; Not sure				Neighbourhood	Neighbourhood level
7.6	# of neighbourhoods with shelter repairs in the past two weeks	Were any of the damaged shelters in the neighbourhood being repaired in the past two weeks?	Select one	Yes; No; Not sure				Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

7.7	# of neighbourhoods with external shelter repair suppliers	Were any of these reconstruction/repairs being enabled by assistance from or conducted by an organisation or administrative authority?	Select one	Yes; No; Not sure		Selected "Yes" for 5.5 or 5.6		Neighbourhood	Neighbourhood level
7.8	Providers of shelter repairs / assistance in the past two weeks	What types of organisation provided the assistance?	Select multiple	Organised neighbourhood group; Local council; Local NGO; International NGO; International agency; Other (specify); Not sure	"Not sure" cannot be selected with any other option	Selected "Yes" for 5.6.1		Neighbourhood	Neighbourhood level
7.9	Other provider of shelter repairs	Other (please specify):	Text			Selected "other" for 5.6.2		Neighbourhood	Neighbourhood level
7.10	Modalities of shelter repairs in the past two weeks	What types of shelter assistance were being provided?	Select multiple	Shelter/repair materials; Unconditional cash support; External actor directly assisted with repairs; External actor provided technical guidance with repairs; Other (specify); Not sure	"Not sure" cannot be selected with any other option	Selected "Yes" for 5.6.1		Neighbourhood	Neighbourhood level
7.11	Other modalities of shelter assistance	Other (please specify):	Text			Selected "other" for 5.6.3		Neighbourhood	Neighbourhood level
7.12	Proportion of shelters in the neighbourhood in need of reconstruction	What proportion of shelters are in need of reconstruction (destroyed shelters in need of building work)?	Select one	Almost all shelters (76-100%), majority of shelters (51-75%), half of all shelters (50%), less than half of shelters (26-49%), none or very few shelters (0-25%); Not sure			Please read all options	Neighbourhood	Neighbourhood level
7.13	Proportion of shelters in neighbourhood in need of repairs	What proportion of shelters in the neighbourhood are in need of repairs (damaged shelters in need of building work)?	Select one	Almost all shelters (76-100%), majority of shelters (51-75%), half of all shelters (50%), less than half of shelters (26-49%), none or very few shelters (0-25%); Not sure			Please read all options	Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

7.1 4	Reasons for not repairing shelters in the neighbourhood in the past two weeks	Why have damaged shelters in the neighbourhood not been repaired or reconstructed in the past two weeks?	Select multiple	Repairs require professional but no professionals available; Repairs require professionals and professionals are available but people cannot afford to pay professionals; Repairs require professionals and professionals are available but repair materials are too expensive; Able to make repairs themselves but shelter and repair materials too expensive; Lack of authorization to make repairs; Lack of availability of shelter and repair materials in markets; Other (specify); Not sure	"Not sure" cannot be selected with any other option			Neighbourhood	Neighbourhood level
7.1 5	Other reasons for not repairing shelters in the neighbourhood	Other (please specify):	Text			Selected "other" for 5.9		Neighbourhood	Neighbourhood level
7.1 6	Primary reason for not repairing shelters in the neighbourhood	What is the primary reason for why damaged shelter in the neighbourhood have not been repaired or reconstructed since the conflict?	Select one	Repairs require professional but no professionals available; Repairs require professionals and professionals are available but people cannot afford to pay professionals; Repairs require professionals and professionals are available but repair materials are too expensive; Able to make repairs themselves but shelter and repair materials too expensive; Lack of authorization to make repairs; Lack of availability of shelter and repair materials in markets;		Selected more than response in 5.9.0			

					Other (specify); Not sure					
8. NFI	8.1	Main sources of electricity in the neighbourhood in the past two weeks	What were the most common sources of electricity used by households in the neighbourhood over the past two weeks?	Select up to three	Main network (grid); Generator (communal/neighbourhood); Generator (private/household); Solar power; Car batteries; Other batteries; No source of electricity; Other (specify); Not sure	"No source of electricity" cannot be selected with any other option; "Not sure" cannot be selected with any other option.			Neighbourhood	Neighbourhood level
	8.2	Households paying a fee to the communal generator	Do households in the neighbourhood pay a fee to access the communal generator?	Select one	Yes; no; not sure				Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

8.3	Amount paid to access communal generator	On average, how much do households pay in Syrian pounds (SYP) to access the communal generator per month?	Integer			If selected 'Yes' in 8.2		Neighbourhood	Neighbourhood level
8.4	Average # of hours of electricity per day in the neighbourhood in the past two weeks from all sources	On average, how many hours of electricity per day have households in this neighbourhood had in the past two weeks (from all sources)?	Select one	None; Less than 2 hours; 2 < 4 hours; 4 < 6 hours; 6 < 8 hours; 8 < 10 hours; 10 < 12 hours; More than 12 hours; Not sure		Not selected "No source of electricity" for 6.1		Neighbourhood	Neighbourhood level
8.5	Average # of hours of electricity per day in the neighbourhood in the past two weeks from the main network	On average, how many hours of electricity per day have households in this neighbourhood had in the past two weeks from the main network?	Select one	None; Less than 2 hours; 2 < 4 hours; 4 < 6 hours; 6 < 8 hours; than 8 hours; Not sure		Not selected "No source of electricity" for 6.1	If the main network is not functioning at all, select 'none'	Neighbourhood	Neighbourhood level
8.6	# of neighbourhoods receiving support to improve electricity access in past two weeks	What type of support has been provided to improve access to electricity in the neighbourhood in the past two weeks?	Select multiple	No support provided; New generators; Generator repairs; Fuel for generators; Car batteries distribution; Repairs to electrical infrastructure (power lines, transformers etc.); Other (Specify); Not sure	"No support provided" cannot be selected with any other option; "Not sure" cannot be selected with any other option		Support refers to assistance - services provided at no cost	Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

8.7	Providers of electricity support in the past two weeks	Who provided this support to improve electricity access in the past two weeks?	Select multiple	Organised neighbourhood group; Local council; Local NGO; International NGO; International agency; Other (specify); Not sure		Not selected "No support provided" OR "Not sure" for 5.3	Support refers to assistance - services provided at no cost	Neighbourhood	Neighbourhood level
8.9	Effect of electricity shortage on service infrastructure and capacity in neighbourhood	How is electricity shortage affecting service provision infrastructure and capacity in the neighbourhood?	Select multiple	Reducing capacity of healthcare facilities; Reducing capacity of education facilities; Reducing capacity of water pumps; Reducing capacity of bakeries; Not affecting infrastructure at all; Other (specify); Not sure				Neighbourhood	Neighbourhood level
8.10	Main sources of cooking fuel used by households in the neighbourhood in the past two weeks	What was the main cooking fuel used by households in the neighbourhood in the past two weeks?	Select one	None; Electricity; Gas; Kerosene / kaz; Diesel; Wood / charcoal; Other (specify); Not sure	"None" cannot be selected with any other option; "Not sure" cannot be selected with any other option			Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

8.1 1	Three main NFI needs	Which of the following items are priority NFI needs for households in the neighbourhood?	Select up to three	None; Bedding items; Mattresses/Sleeping mats; Cooking utensils; Carpet/Rug; Cooking fuel; Water containers; Torches; Solar lamps; Solar panels; Clothing; Shoes; Batteries; Winter heaters; Heating fuel; Winter clothes; Winter shoes; Winter blankets; Disposable diapers; Sanitary pads; Soap; Washing powder; Cleaning liquid (for house); Detergent (for dishes); Baby diapers; Adult diapers; Other (specify); Not sure				Neighbourhood	Neighbourhood level
8.1 2	Level of winterization preparedness for households	In your opinion, how prepared are households in your neighbourhood for cold winter temperatures- in terms of having sufficient appropriate NFI items (winter heaters, winter shoes, winter blankets, heating fuel, winter clothes) ?	Select one	Very poorly prepared (have very few of these NFI items); Poorly prepared (have some of these NFI items, but not sufficiently); Fairly prepared (have a moderate amount of these items in the household); Well prepared (have most of these items for all members of the household); Very well prepared (have all these items for almost all household members); Not sure			Read out all the winterisation items		
		Specify other	text						

Northeast Syria Area-Based Assessments, January 2019

8.1 3	Main sources of NFIs in past two weeks	What were the three most common sources of NFI items accessed by households living in this neighbourhood over the past two weeks?	Select up to three	Purchasing from stores/markets in this neighbourhood; Purchasing from stores/markets in other neighbourhoods; Assistance from local councils / NGOs / other groups; Gifts from family/friends; Begging/bartering; Borrowing; Brought from elsewhere (including outside of the city); Other (specify); Not sure				Neighbourhood	Neighbourhood level
8.1 4	Availability of NFIs in the neighbourhood in the past two weeks	In the past two weeks, what was the availability of each NFI item in markets in the neighbourhood? [For each NFI item]	Select one	Almost always available; Sometimes available; Not available; Not sure				Neighbourhood	Neighbourhood level
8.1 5	Affordability of core NFIs in the neighbourhood in the past two weeks	For each item that was available, please indicate if it was affordable [For each NFI item]	Select one	Affordable for the majority of people; Not affordable for the majority of people		Question only appears if "Almost always available" or "Sometimes available" selected for 6.8	Affordable - are the items cheap enough for households to regularly purchase items when they are needed	Neighbourhood	Neighbourhood level
8.1 6	Other neighbourhoods accessed for NFI items in the past two weeks	Over the past two weeks, which neighbourhoods did households from this neighbourhood travel to in order to access the follow types of NFI items? Personal hygiene items Household cleaning products Cooking and heating fuel Clothing and bedding items	Select multiple	Neighbourhood list and outside of city Did not travel to other neighbourhoods Not sure				Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

8,17	# of neighbourhoods receiving NFI distribution in past two weeks	Did households living in this neighbourhood receive NFIs of any kind from any sources over the past two weeks?	Select one	Yes; No; Not sure				Neighbourhood	Neighbourhood level
8,18	NFI assistance received in past two weeks	Which items were received?	Select multiple	Bedding items; Mattresses/Sleeping mats; Cooking utensils; Cooking fuel; Water containers; Torches; Solar lamps; Solar panels; Clothing; Shoes; Batteries; Winter heaters; Heating fuel; Winter clothes; Winter shoes; Winter blankets; Disposable diapers; Sanitary pads; Soap; Washing powder; Cleaning liquid (for house); Detergent (for dishes); Baby diapers; Adult diapers; Other (specify); Not sure	"Not sure" cannot be selected with any other option	Selected "Yes" for 6.11		Neighbourhood	Neighbourhood level
8.19	Location of NFI distribution in the past two weeks	Was the assistance distributed in this neighbourhood in the past two weeks?	Select one	Yes; No; Not sure		Selected "Yes" for 6.11		Neighbourhood	Neighbourhood level
8.20	Other neighbourhoods where NFIs were received in the past two weeks	Did households in this neighbourhood receive the assistance in any other neighbourhood?	Select multiple	Neighbourhood list, outside of city, and none/NA	"None" cannot be selected with any other option	Selected "Yes" for 6.11		Neighbourhood	Neighbourhood level
8.21	Organisation delivering NFIs in the past two weeks	Which type of organisation provided the assistance?	Select multiple	Organised neighbourhood group; Local council; Local NGO; International NGO; International agency; Other (specify); Not sure		Selected "Yes" for 6.11		Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

	8.2 2	Preferred modality of NFI assistance for households in the neighbourhood	How would households in this neighbourhood generally prefer to receive NFI assistance?	Select one	No preference; In-kind NFI distributions; Vouchers; Cash; Other (specify)				Neighbourhood	Neighbourhood level	
9. WASH	9.1	Three most common sources of water used by households in the neighbourhood in the past two weeks	What were the most common sources of water used for all purposes (including cooking, drinking, household use etc) in the neighbourhood over the last two weeks?	Select up to three	General use water was not available; Main network; Surface water (untreated water from the river surface that is distributed via the water network); Water trucking; Neighbourhood borehole for free; Neighbourhood borehole paid; Springs, river or natural source; Bottled water; Not sure; Other (specify)	"Not sure" cannot be selected with any other option; "general use water not available" cannot be selected with any other option		Please select the source of water from which households directly obtain the water. For instance, if surface water from the river is trucked into the community, please select "trucked water."	Neighbourhood	Neighbourhood level	
	INSERT LOOP for each choice in 7.1										
				Is the water obtained through (choice from 7.1) treated with chlorine?	Select one	Yes, No, Not sure				Neighbourhood	Neighbourhood level
				What is the price of water from this source? Price (SYP): Quantity (litres):	Integer			Enter 0 for both options if the water is free.		Neighbourhood	Neighbourhood level
				Who is providing the water from this source?	Select multiple	NGO; local authorities; civilians / private businesses other (specify)				Neighbourhood	Neighbourhood level
			Other (please specify):	Text			If "other" is indicated for the		Neighbourhood	Neighbourhood level

	10.6	Three main barriers in accessing healthcare over the past two weeks	What were the main barriers to accessing health services over the past two weeks?	Select up to three	No challenges, lack of facilities, distance to facilities, lack of medicine/medical items, lack of medical equipment / machinery, lack of medical personnel, healthcare is being provided by unqualified members of the community, unsafe to travel to medical facilities, lack of female doctors, women physically unable to access medical facilities, healthcare is available but of low quality, healthcare is available but unaffordable, healthcare only available to certain groups (e.g. people with certain political affiliations), health care available in certain areas not easily accessible to all members of the community, other (specify), not sure.	"No challenges" cannot be selected with any other option; "Not sure" cannot be selected with any other option		Read all options to the respondent	Neighbourhood	Neighbourhood level
11. Education	11.1	% of children aged 6 - 12 in the neighbourhood accessing education services	What proportion of children aged between 6 and 12 in the neighbourhood have been attending primary school in the past two weeks?	Select one	Almost all children (76-100%), majority of children (51-75%), half of all children (50%), less than half of children (26-49%), none or very few children (0-25%); Not sure			Education services refers to attendance in formal school or participation in informal learning programs.	Neighbourhood	Neighbourhood level
	11.2	% of children aged 13 - 15 in the neighbourhood accessing education services	What proportion of children aged between 13 and 15 in the neighbourhood have been attending- intermediary school in the past two weeks?	Select one	Almost all children (76-100%), majority of children (51-75%), half of all children (50%), less than half of children (26-49%), none or very few children (0-25%); Not sure			Education services refers to attendance in formal school or participation in informal learning programs.	Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

11.3	% of children aged 16 - 18 in the neighbourhood accessing education services	What proportion of children aged between 16 and 18 in the neighbourhood have been attending secondary school in the past two weeks?	Select one	Almost all children (76-100%), majority of children (51-75%), half of all children (50%), less than half of children (26-49%), none or very few children (0-25%); Not sure			Education services refers to attendance in formal school or participation in informal learning programs.	Neighbourhood	Neighbourhood level
11.4	% of children aged 6 - 12 in the neighbourhood dropping out of education	How common do you estimate it is for children aged between 6 and 12 in the neighbourhood to drop out of school during their primary level education? Girls; Boys;	Select one	Almost all children (76-100%), majority of children (51-75%), half of all children (50%), less than half of children (26-49%), none or very few children (0-25%); Not sure				Neighbourhood	Neighbourhood level
11.5	% of children aged 13 - 15 in the neighbourhood dropping out of education	How common do you estimate it is for children aged between 13 and 15 in the neighbourhood to drop out of school during their intermediary level education? Girls; Boys;	Select one	Almost all children (76-100%), majority of children (51-75%), half of all children (50%), less than half of children (26-49%), none or very few children (0-25%); Not sure				Neighbourhood	Neighbourhood level
11.6	Education facilities accessed in the neighbourhood	Please identify each type of functional and accessible education facility that is present inside the neighbourhood.	Select multiple	None; Kindergarten (5 and under); Primary school (6-12); Secondary school (13-15); High school / Institutes (16-18); University; Informal education centre; Other (specify); Not sure				Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

	11.7	Education facilities accessed in other neighbourhoods	<p>Over the past two weeks, did households from the neighbourhood send their children to any other areas in order to access education facilities?</p> <p>Kindergarten (5 and under); Primary school (6-12); Secondary school (13-15); High school / Institutes (16-18); University; Informal education centre</p>	Select multiple	Neighbourhood list, outside of city, and none/NA	"None" cannot be selected with any other option			Neighbourhood	Neighbourhood level
	11.8	Location of education services accessed outside of the city	Where outside of Ar-Raqqa city were residents from this neighbourhood going to access education in the past two weeks?	Text			"Outside of city" was selected for 9.4	Please specify the location outside of the city that residents traveled to in order to access education in the past two weeks.	Neighbourhood	Neighbourhood level

Northeast Syria Area-Based Assessments, January 2019

	11.9	Three main barriers to accessing education services	What have been the main barriers to households in the neighbourhood accessing education services in the past two weeks?	Select up to three	None; Lack of teaching/learning materials; Physical punishment/bullying; No education facilities available; Safety/security concerns; Schools are too far away / no transport available; No spaces in schools / unable to register; Schools are not in good condition (problems with heating, latrines, electricity, furniture); Schools lack trained teachers; No education for children of a certain age; Children have to work; Customs/tradition (early marriage, gender etc); Education is not considered important; Curriculum is not suitable (e.g. different to area of origin); Not enough information is available about how to enrol children; Classes are overcrowded; Difficult for children to return to education after absence; Lack of awareness about education services; Other (specify)	"None" cannot be selected with any other option			Neighbourhood	Neighbourhood level
--	------	---	---	--------------------	---	---	--	--	---------------	---------------------

12. Protection	12.1	Prevalence of protection issues to occur in the past two weeks	Are you aware of any of the following safety/security issues taking place in the neighbourhood over the past two weeks?	Select multiple	None; Serious threat from scorpions, snakes, or similar; Confiscation of documents; Disputes between residents; Threat from armed groups; Exploitation of residents (e.g. forced or underpaid labour); Domestic violence; Sexual violence; Movement restrictions; Threat from mines / unexploded ordnance; Threat from snipers/gunfire; Threat from airstrikes; Threat from IEDs/SVBIEDS/BBIEDs; Theft; Fear of conscription; Discrimination on basis of ethnic background; not sure; other (specify)	"None" cannot be selected with any other option; "Not sure" cannot be selected with any other option			Neighbourhood	Neighbourhood level
	12.2	Barriers to freedom of movement	Have any of the following barriers to free and safe of movement from the neighbourhood to elsewhere been observed in the last 30 days?	Select multiple	No barriers (cannot select with another option); Insufficient transportation; transportation options available but too expensive; safety/security situation; risk of mines/unexploded ordnances; Lack of documentation (lost / confiscated); Harassment in the street; Fear of conscription; Discrimination on basis of ethnic background; Targetting at security check points; not sure; other (specify); not sure				Neighbourhood	Neighbourhood level
	12.3	Barriers affect some groups more than others	Do these barriers affect some groups more than others in your neighbourhood?	Select multiple	No, everyone faces the same barriers; Yes, men; yes, women; yes, children (below 16 years); yes, IDPs; yes, elderly above 65 years);				Neighbourhood	Neighbourhood level

				Particular ethnic groups faces barriers; No one faces any barriers					
	12.4	Women and girls issues in access to services	Are there services that women or girls in this neighbourhood cannot access because of safety or security concerns?	Select multiple	Education services; Healthcare services; acquiring civil documentation; access to jobs/sources of income; Market areas; Humanitarian assistance/NGO distributions; other (specify); none				
	12.5	Prevalence of child protection issues in the neighbourhood	In your opinion, how common are the following activities in the neighbourhood: Physical or sexual violence against children (below 16 years old) Early marriage (below 16 years old) Child labour (children under the age of 16 working) Child headed households (below 16 years old) Involvement of children under 16 years old in illegal activities (theft, gang activity, drug abuse) Involvement of children in armed activities (under the age of 18) Separated or unaccompanied children under 16 years old (including orphans) Other (specify)	Select one	Never occurs; uncommon; common; very common		Response to be given for each activity	Neighbourhood	Neighbourhood level
13. Priority needs	13.1	Main priority need	What is the main priority need of households in the neighbourhood?	Select one	Safety and security; jobs/sources of income; Shelter; Health; NFIs; Food; Water; Education; Hygiene; Winterisation or equivalent; Cash/voucher			Neighbourhood	Neighbourhood level

				assistance; Other; Not sure					
13.2	Second priority need	What is the second priority need of households in the neighbourhood?	Select one	Safety and security; jobs/sources of income; Shelter; Health; NFIs; Food; Water; Education; Hygiene; Winterisation or equivalent; Cash/voucher assistance; Other; Not sure				Neighbourhood	Neighbourhood level
13.3	Third priority need	What is the third priority need of households in the neighbourhood?	Select one	Safety and security; jobs/sources of income; Shelter; Health; NFIs; Food; Water; Education; Hygiene; Winterisation or equivalent; Cash/voucher assistance; Other; Not sure				Neighbourhood	Neighbourhood level
