Joint Education and Child Protection Needs Assessment Hilmand Province, Afghanistan - September 2017

Background

In collaboration with OCHA and the Afghanistan Education in Emergency Working Group, REACH conducted a Joint Education and Child Protection Needs Assessment (JENA), to identify the education situation and child protection vulnerabilities faced by displaced households (HHs) across Afghanistan.

The JENA aimed to inform evidence-based planning of education programmes in 2018, by assessing the demographics of displaced populations (IDPs, returnees and refugees), attendance and enrolment rates of these children and identifying available services in schools across the country.

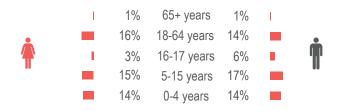

Methodology

Mixed methods data collection was conducted between 10 August and 14 September 2017 across all regions of Afghanistan. In total, 9,435 HH-level surveys with displaced HHs containing at least one school-aged boy or girl (5 to 15 years), selected through cluster sampling, and 18 focus group discussions with approximately 6 participants per discussion, were conducted.

The following factsheet reflects quantitative findings from the Hilmand province, in which 592 HH surveys took place, providing generalisable findings in this region with a confidence level of 95% and a 5% margin of error.

† Demographics

Composition of assessed displaced population, by gender and age:

There was found to be 126 school-aged boys for every 100 school-aged girls among assessed displaced populations.

11.6 average HH size. **1%** of HHs were female-headed.

Socio-Economic Wellbeing

13,492 AFN Average income earned by displaced HHs in the last 30 days.

Main source of HH income in the 30 days prior to the assessment:

Skilled daily labour	57%	
Unskilled daily labour	27%	
Cash crop farming	9%	

% of HH income spent on the following items in the 30 days prior to the assessment:

45%	Food		was the average proportion
19%	Rent	1%	of income spent on education
5%	Fuel		expenditures.

⅓→ Displacement

Displacement status of assessed population:

Recent IDPs (displaced under 6 months)	86%	
Prolonged IDPs (6 months to 2 years)	12%	
Protracted IDPs (more than 2 years)	1%	1
Returnees	1%	I .
Refugees	0%	

Main previous location of residence of HHs, by displacement status:

⅓ → ID	N- IDPs		Returnees		efugees	
91%	Hilmand	50%	Pakistan	0%	No Refugees	
2%	Ghaznni	50%	Iran			
1%	Ghor					

Top 3 push and pull factors for displaced HHs:			
Push factors	Pull factors		
Insecurity and conflict	Greater security		
Fear for HH safety 2	Affordability		
Shelter damage 3	Temporary stay before further movement		

→ Priority Needs & Assistance

Main priority needs by % of displaced HHs:

Most common type of assistance received in current location by % of HH:

47%	Improved security	1%	Food
32%	Shelter	1%	Healthcare
17%	Employment support		

98% of assessed displaced HHs reported having received no assistance in their current location.

Education assistance was reportedly received by 0% of households, in their current location.

Proportion of boys and girls aged less than 16 years old, earning an income outside of the home:

Boys	27%	
Girls	33%	

Proportion of boys and girls married before 16 years old:

Boys	3%	
Girls	16%	

¹ 151.20 USD (1 USD = 69 AFN - Da Afghanistan Bank Exchange Rates, September 2017)

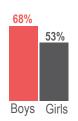

Education

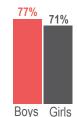

Enrolment

29% of school-aged girls are not enrolled in school, compared to 23% of school-aged boys.

Proportion of children enrolled before displacement:

Note: Qualitative findings indicated that HHs were more inclined to enrol children in school after displacement, as access to facilities increased, the quality of education was perceived to be higher in urban areas compared to rural locations and children were perceived to be safer travelling to school in these new locations.

Proportion of HHs in which girls and boys regularly attend school, among HHs that enrol children:

Average number of days per week school-enrolled boys attend school, out of six possible days:

5.8

Average number of days per week school-enrolled girls attend school, out of six possible days:

1.4

Barriers to Education

Main barriers to education for boys and girls, reported by HHs:

Boys	Girls
Insecurity and violence	Required to help at home
Long distance to school 2	Insecurity and violence
Harassment and bullying 3	Long distance to school

Education Facilities

Main education facilities attended by boys and girls in the HH, that are enrolled in schools:

Accessibility

2.8 km Average distance travelled to school: 26 minutes Average time spent travelling to school: Most common mode of transport: Walking

Facilities in Schools

WASH Facilities

Proportion of HHs reporting each type of WASH facility, service or hygiene training in schools attended by children:

Drinking water	99%	
Gendered toilets	95%	
Handwashing facilities	2%	I .
Hygiene trainings	0%	
No facilities available	0%	

Health Facilities

Proportion of HHs reporting the availability of any health facilities and equipments in schools:

No facilities available	99%
Health facilities available	1%

Food Provision

Proportion of HHs reporting that food is provided for free within schools:

No food provided	100%	
Food provided in schools	0%	

Psychosocial Support in Schools

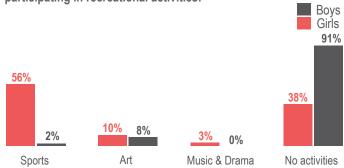

Support Services

Proportion of HHs reporting the presence of the following support mechanisms or services in schools:

Social workers	0%	
Support groups	0%	
Counsellors	0%	
No services available	100%	

Recreational Activities

Proportion of HHs reporting at least one boy or girl child participating in recreational activities:

³ With health facilities and equipments referring to any of the following: First aid kits, mental healthcare services or nutrition information sharing

² Regular attendance refers to attendance at school at least two out of a possible six days, in a given week.
