

Rapid Response Mechanism: Central African Republic

#12 01 - 31 December 2018
Monthly dashboard

The Rapid Response Mechanism (RRM) is designed to monitor humanitarian action, conduct multisector assessments, emergency non-food items distributions (NFI) and water, sanitation and hygiene interventions (WASH) when there is no capacity on site. Currently, RRM is made possible through the generous support of the European Union Civil Protection and Humanitarian Aid Office (ECHO), the Office of U.S. Foreign Disaster Assistance (OFDA), the Swedish International Development Cooperation Agency (SIDA) and the Swiss Agency for Development and Cooperation (SDC). All RRM products are available on the [Humanitarian Response](#) portal.

Median delays between alert and intervention²: **30 days**

Beneficiaries January - December 2018

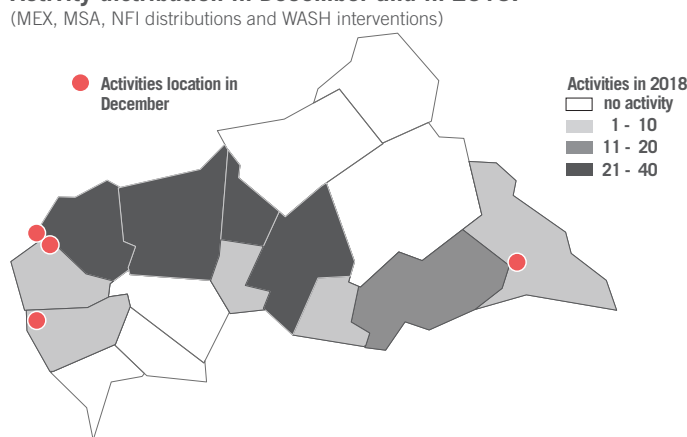

¹Compared to Novembre 2018, the difference is due to 12,466 individuals (2,234 households) benefiting from cash assistance instead of a NFI distribution.

¹MSA-R are not triggered following a RRM alert. MSA-R aim at gathering information on areas not recently affected and/or not recently accessed by humanitarian actors. ²Based on the first intervention (NFI or WASH), for any alert raised in 2018. ³The term 'host community' refers to individuals that have not been displaced as the result of a humanitarian-related event. ⁴The term 'returnees' refers to people who have come back to their pre-crisis location following a period of internal displacement. ⁵The term 'repatriated' refers to former refugees who have returned from neighbouring countries. ⁶Overall satisfaction of beneficiaries with NFIs kits.
