

Rapid Response Mechanism: Central African Republic

#6

01 - 30 June 2018
Monthly dashboard

The Rapid Response Mechanism (RRM) is designed to monitor humanitarian action, conduct multisector assessments, emergency non-food items distributions (NFI) and water, sanitation and hygiene interventions (WASH) when there is no capacity on site. Currently, RRM is made possible through the generous support of the European Union Civil Protection and Humanitarian Aid Office (ECHO), the Office of U.S. Foreign Disaster Assistance (OFDA), the Swedish International Development Cooperation Agency (SIDA) and the Swiss Agency for Development and Cooperation (SDC). All RRM products are available on the [Humanitarian Response portal](#).
