

# Rapid Response Mechanism: Central African Republic

## #11

01 - 30 November 2018  
Monthly dashboard

The Rapid Response Mechanism (RRM) is designed to monitor humanitarian action, conduct multisector assessments, emergency non-food items distributions (NFI) and water, sanitation and hygiene interventions (WASH) when there is no capacity on site. Currently, RRM is made possible through the generous support of the European Union Civil Protection and Humanitarian Aid Office (ECHO), the Office of U.S. Foreign Disaster Assistance (OFDA), the Swedish International Development Cooperation Agency (SIDA) and the Swiss Agency for Development and Cooperation (SDC). All RRM products are available on the [Humanitarian Response](#) portal.

<sup>1</sup>MSA-R are not triggered following a RRM alert. MSA-R aim at gathering information on areas not recently affected and/or not recently accessed by humanitarian actors. <sup>2</sup>Based on the first intervention (NFI or WASH), for any alert raised in 2018. <sup>3</sup>The term 'host community' refers to individuals that have not been displaced as the result of a humanitarian-related event. <sup>4</sup>The term 'returnees' refers to people who have come back to their pre-crisis location following a period of internal displacement. <sup>5</sup>The term 'repatriated' refers to former refugees who have returned from neighbouring countries. <sup>6</sup>Overall satisfaction of beneficiaries with NFIs kits.
