

Cross-Border Population Movement Factsheet

Kapoeta Road Monitoring

Kapoeta South County, Eastern Equatoria State, South Sudan

CONTEXT AND METHODOLOGY

Kapoeta town is located in Kapoeta South County, Eastern Equatoria State, near South Sudan's border with Kenya. Since the beginning of the crisis in South Sudan in December 2013, Kapoeta town has been a gateway through which many internally displaced persons (IDPs) have passed on their way to refugee camps in Kenya.

This factsheet provides results from the REACH road monitoring exercise in Kapoeta town. REACH monitors two bus/car parks where travellers are travelling to and from Torit/Juba and Narus/Kakuma, in order to record the arrivals and departures of households (HHs) on a daily basis. Daily data is synthesized into a monthly factsheet to provide an overview of wider movement trends, including push/pull factors, vulnerabilities and intentions. The following findings are based on primary data collected between 1 and 31 July 2019. In July, 99% of surveyed inbound and outbound HHs were of South Sudanese origin, the remaining 1% were Sudanese HHs.

Not all entry points to Kapoeta town were covered systematically, and some arrivals and departures reportedly took place outside of data collection hours (7:00 a.m - 7:00 p.m). As a result, data presented in this factsheet does not capture all population movements and **as such findings are not representative but rather indicative only** of broader population movement trends for the assessed population.

GENERAL MOVEMENT TRENDS

Average daily number of individuals inbound to (grey) and outbound from (red) South Sudan with the intention to stay in their final destination for more than six months recorded in Kapoeta Town from October 2018 to July 2019:

In July, there was a decrease of inflows into South Sudan while outflows toward Kenya stayed the same from the previous month.

Type of movement

Total monthly number of HHs and individuals recorded in July 2019:

	HHs	Individuals	% ²
Inbound to South Sudan from Kenya	79	255	32%
Outbound to Kenya from South Sudan	74	288	30%
Internal movement within South Sudan ¹	94	196	38%

Self-reported refugees

Proportion of inbound (left) and outbound (right) HHs who self-reported having refugee status in another country:

Vulnerabilities³

75% of total inbound HHs reported that at least one member of the HH had a vulnerability, including:

- 58% Pregnant or breastfeeding.
- 15% Critically ill

77% of total outbound HHs reported that at least one member of the HH had a vulnerability, including:

- 68% Pregnant or breastfeeding.
- 16% Critically ill

INBOUND TO SOUTH SUDAN⁴

63% of inbound HHs reported intending to stay more than six months in their final destination in South Sudan.

Demographics

Proportion of recorded travellers by demographic group:

91% of inbound HHs were partial HHs.⁵

Previous locations

Primary reported locations from which inbound HHs were leaving:

Kakuma Refugee Camp, Kenya	51%
Kalobeyei Intergrated Settlement, Kenya ⁶	49%

Intended destination in South Sudan

Primary reported intended destinations for inbound HHs:

Juba County	37%
Torit County	30%
Budi County	10%

Push factors

Primary reported push factors for inbound HHs to leave their last location:

Distance from family/home ⁷	57%
Lack of access to food	13%
Lack of health services	11%

Reasons for coming to South Sudan

Primary reported pull factors for inbound HHs, April to July 2019:

	April 2019	May 2019	June 2019	July 2019
Proximity to family/home ⁷	n/a	48%	52%	64%
Presence of education services	9%	21%	10%	10%
Perceived availability of food ⁸	11%	5%	23%	6%

Notes:

- While internal movement within South Sudan was also recorded in Kapoeta over the period (38% of all movement), this factsheet covers crossborder movement only.
- This percentage represents the percent of households, not the percent of individuals.
- Respondents could choose more than one answer.
- Unless otherwise specified, these figures reflect trends for all HHs interviewed, regardless of the length of time that the HHs are planning to stay at the destination.
- Partial HHs are those where not all members of the self-identified family unit were reportedly travelling. Please note, family units in South Sudan often extend beyond the nuclear family.
- <https://www.unhcr.org/ke/kalobeyei-settlement>
- An additional option of "want to be home" was included to the survey in May 2019, and the value added to the value for the response option "to be reunited with family".
- Perceived availability of food represents an aggregation of three response options: 1) presence of food distributions, 2) availability of local food, and 3) to plant crops or cultivate.

OUTBOUND FROM SOUTH SUDAN

80% of outbound HHs reported intending to stay more than six months in their final destination outside of South Sudan.

Demographics

Proportion of recorded travellers by demographic group:

74% of outbound HHs were partial HHs.⁵

Previous location in South Sudan

Primary reported locations from which outbound HHs were leaving:

Juba County, South Sudan	27%
Torit County, South Sudan	20%
Ikotos County, South Sudan	20%

Intended destination in Kenya

Primary reported intended destinations for outbound HHs:

Kakuma Refugee Camp	72%
Kalobeyei Integrated Settlement, Kenya ⁶	26%

Pull factors

Primary reported pull factors for outbound HHs to go to another country:

Perceived availability of food ⁸	48%
Presence of education services	24%
Proximity to family	22%

Reasons for leaving South Sudan

Primary reported push factors for outbound HHs, April to July 2019:

	April 2019	May 2019	June 2019	July 2019
Lack of food	55%	69%	59%	55%
Distance from family	23%	14%	14%	22%
Lack of education services	11%	9%	20%	19%
