Detailed dissemination plan required	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No	
	General Objective		
<i>Inform the overall humanitarian response to internally displaced persons (IDPs) and resident/pre-conflict populations in Idleb governorate and surrounding areas by</i>			

¹ The period between data collection and data cleaning/analysis will be delayed due to Eid public holidays.

	<i>providing an understanding of movement intentions in the event of a potential escalation of conflict in or near their communities in mid-August 2018.</i>		
Specific Objective(s)	<ol style="list-style-type: none"> 1. Provide an overview of expected displacement patterns of populations in accessible areas of Idleb governorate and surrounding areas. 2. Identify key intentions of IDP and resident/pre-conflict populations, including likely movement intentions according to two potential scenarios: (1) conflict escalation and (2) movement restrictions and security situation as of mid-August 2018 3. Identify the most common push and pull factors affecting populations' decisions to remain in or leave assessed communities. 		
Research Questions	<p><i>Research Question 1: What are the expected displacement patterns of IDP and resident/pre-conflict populations in Idleb governorate and surrounding areas, including the likely impact of:</i></p> <ol style="list-style-type: none"> a) <i>Escalation of conflict in or around populations' current locations.</i> b) <i>Movement restrictions and security situation as of mid-August 2018.</i> <p><i>Research Question 2: What are the most common push and pull factors that are likely to affect displacement patterns?</i></p>		
Geographic Coverage	<i>30 accessible sub-districts in Aleppo, Hama and Idleb governorates in Syria.</i>		
Secondary data sources	<i>Main sources include: Humanitarian Situation Overview in Syria (HSOS) in Idleb governorate and surrounding areas, population numbers assessed as of 31 March and 31 July 2018 as part of the REACH-CCCM IDP Situation Monitoring Initiative (SMI), as well as media, open source reports, humanitarian reports from UN agencies and other humanitarian bodies.</i>

2. Rationale

2.1. Rationale

As of early September 2018, Idlib governorate and the surrounding areas of western Aleppo and north-western Hama governorates are one of the last remaining opposition-held territories in Syria. Since the outbreak of the conflict in 2011, the predominantly rural region has seen its population swell following continuous influxes of IDPs from across the country. More recently, from late 2017, the region has witnessed further large-scale IDP arrivals, following escalations of conflict and displacements from formerly opposition-held areas in south-eastern Idlib, Rural Damascus, Homs, Hama, Dar'a and Quneitra governorates, leading to a growing strain on resources and services in the region. As of late July 2018, with widespread concern over an imminent military offensive in the region – potentially displacing up to 800,000 people, according to UNOCHA² - REACH and CCCM will conduct a population movement intentions assessment. The objective of this assessment will be to determine if and where IDP and resident/pre-conflict populations currently living in Idlib governorate and surrounding areas will move to given two potential scenarios, thereby providing humanitarian actors with an indication of where to focus their resources. The first scenario asks for movement intentions in case conflict intensifies in or around assessed communities, while the second scenario asks for movement intentions based on the security situation and movement restrictions as of mid-August 2018.

3. Methodology

3.1. Methodology overview

A key informant methodology will be employed for this movement intentions assessment. In coordination with the Camp Coordination and Camp Management (CCCM) Cluster, data will be collected in 362 (out of approximately 700) communities across 30 (out of 37) sub-districts in Idlib governorate and surrounding opposition-held areas. Communities will be selected based on available population data, focusing on those reported to have large total populations (+1,000 resident/pre-conflict population individuals) and those that reported the arrival of a minimum of 40 IDP individuals in June and July 2018.

Data will be collected at the community level, with enumerators interviewing at least 2 Key Informants (KIs) per community. KIs will be selected based on their knowledge of IDP and resident/pre-conflict populations in communities – with one KI in each assessed location expected to be expertly knowledgeable of either population group. Collected primary data will then be further triangulated through available secondary sources.

² IRIN NEWS, '[Idlib briefing: "Humanitarian catastrophe" feared as Syria war reaches final rebel stronghold](#)', 3 September 2018; France 24, '[UN fears 800,000 could be displaced in Syria's rebel-held Idlib](#)', 29 August 2018; United Nations Secretary-General, '[Statement attributable to the Spokesman for the Secretary-General on Syria](#)', 29 August 2018.

3.2. Population of interest

The two main populations of interest for this assessment are Internally Displaced Persons (IDPs), defined as

- *'Individuals or groups of people who have been forced to leave their homes or places of habitual residence, in particular as a result of or in order to avoid the effects of armed conflict, situations of generalised violence, violations of human rights, or natural or man-made disasters, and who have not crossed an international border',*

and resident/pre-conflict populations, defined as

- *'Individuals or groups of people who currently reside in their communities of origin, or communities of permanent residence prior to the Syrian conflict. This includes populations that were never displaced as well as previously displaced populations that have returned to their communities of origin'.³*

3.3. Secondary data review

Available secondary data sources will be used to triangulate primary data collection and will include data collected through the Humanitarian Situation Overview in Syria (HSOS) in Idlib governorate and surrounding areas, population and displacement numbers assessed on an ongoing basis as part of the REACH-CCCM IDP Situation Monitoring Initiative (ISMI), as well as available data from UN agencies and other humanitarian bodies, and media and open source reports.

3.4. Primary Data Collection

Primary data collection will be conducted mostly face-to-face in accessible communities in Idlib governorate and surrounding areas. In some communities, where face-to-face data collection is not possible due to the security situation or other constraints, data will be collected remotely. Data will be collected through a key informant methodology. REACH will utilise its wide KI network in north-western Syria to collect information as follows:

- Based on a structured questionnaire, enumerators will ask KIs a limited number of questions based on two potential scenarios: 1) movement intentions if the security situation and movement restrictions as of mid-August persist and 2) movement intentions if conflict intensifies in or around the assessed communities. This includes questions on intended destinations, the main push and pull factors of those reportedly intending to move, as well as people's main reasons for staying in the assessed location and push factors for movement for those who currently intend to stay.
- Enumerators will submit two forms (one for IDP and one for resident/pre-conflict populations) per assessed location. Enumerators will interview a minimum of two KIs per community.
- KI types may include: CCCM member staff, civil society groups, local charities, local council members, local relief committees, NGOs, community leaders, documentation office/registration focal points, camp/collective centre managers and teachers. While all of the aforementioned KIs are knowledgeable about the the situation and movement intentions of IDP households, the following KI profiles are deemed to be particularly knowledgeable about the IDP population: local relief committees, local charities, civil society groups, cccm member staff, ngos, idp community leaders (elders) and idp community leaders (religious).
- Communities will be selected focusing on communities with a high total population and with a reported minimum of 40 individual IDP arrivals in the two months (June, July) preceding data collection (based on previous data available through ISMI).

³ These definitions are used across all ISMI products.

- 362 communities will be assessed, covering 30 sub-districts in the region where access and direct data collection is possible.⁴

3.5. Data Processing & Analysis

All submissions will be checked for internal inconsistencies. Follow up will be conducted with enumerators and KIs for all communities where discrepancies or issues were discovered. Submitted raw data will be cleaned based on follow up responses and all changes to the data will be logged.

For population numbers, KIs were asked in a separate quarterly population update assessment to provide the number of resident and IDP households present in the community as of 31 July 2018, as well as individual figures if known. A minimum of two KIs were interviewed in each assessed community, with a third KI being interviewed in communities with total populations of more than 15,000 households. Triangulated household figures were then multiplied by a calculated average household size of 5.7, based on several rounds of population assessments conducted under the REACH/CCCM IDP Situation Monitoring Initiative, to attain estimated individual figures for all assessed communities. KIs were also asked whether the IDP figures reported included IDP populations in nearby camps and sites. If not, known IDP populations in nearby camps and sites, provided by the IDP Sites Integrated Monitoring Matrix (ISIMM), were added to the IDP population figures reported by KIs. Discrepancies with other available population data may be the result of any of the following: differences in assessment coverage dates; differences in definitions of population subgroups (IDPs and residents); differences in geographic scope of assessed locations (e.g. included/excluded nearby camps and sites); differences in KI types interviewed; and differences in average household sizes used to calculate individual numbers, among others.

Data from assessments will be analysed and reported at the sub-district level in order to produce an overview of movement intentions based on the security situation and movement restrictions at the time of data collection, as well as an overview of movement intentions if conflict intensifies in or around the assessed communities in order to provide humanitarian actors with an indication of where to focus resources. Data will be collected directly in assessed communities through REACH enumerators from KIs living or working in the community and then aggregated to obtain findings at the sub-district level:

- Continuous variables (e.g. #, %): average across all entries
- Categorical variables (select multiple, select one): most commonly reported responses on a governorate or sub-district level
- Open-ended question: free text, qualitative narrative.

3. Roles and responsibilities

Table 2: Description of roles and responsibilities

Task Description	Responsible	Accountable	Consulted	Informed
<i>Research design</i>	Assessment Officer	Assessment Manager	HQ Research Design Unit GIS Officer	Regional Coordinator
<i>Supervising data collection</i>	Senior Programme Officer	Assessment Manager	HQ Data Analysis Unit	Regional Coordinator
<i>Data processing (checking, cleaning)</i>	Assessment Officer	Assessment Manager	HQ Data Analysis Unit	Regional Coordinator
<i>Data analysis</i>	Assessment Officer	Assessment Manager	HQ Data Analysis Unit	Regional Coordinator

⁴ At times of conflict or heightened movement restrictions, certain communities that are usually accessible for face-to-face interviews may be assessed remotely.

			GIS Officer	
<i>Output production</i>	Assessment Officer GIS Officer	Assessment Manager	HQ Reporting Unit HQ GIS Unit	Regional Coordinator
<i>Dissemination</i>	Assessment Officer	Assessment Manager	HQ Communication Unit	Regional Coordinator
<i>Monitoring & Evaluation</i>	Assessment Officer	Assessment Manager	HQ Research Design Unit	Regional Coordinator
<i>Lessons learned</i>	Assessment Officer	Assessment Manager	HQ Research Design Unit	Regional Coordinator

Responsible: the person(s) who executes the task

Accountable: the person who validates the completion of the task and is accountable of the final output or milestone

Consulted: the person(s) who must be consulted when the task is implemented

Informed: the person(s) who need to be informed when the task is complete

4. Data Analysis Plan

IDP population

Research questions	IN #	Data collection method	Indicator / Variable	Questionnaire Question (IDP population)	Questionnaire Responses	Data collection level

		KI interview		Intended destination - other community:		Community
		KI interview		Please enter any other information you have about the intended destination, camp or informal settlement:		Community
<i>Research Question 2: What are the most common push and pull factors that are likely to affect displacement patterns?</i>	B.2.6.5.	KI interview	Three main factors	What are the three main factors causing resident population households to choose this particular destination to move to in the next month?	Access to income and employment opportunities; Family ties / host community relationship; Distance to current location; Safety and security situation in the intended destination; Access to humanitarian assistance; Access to food; Access to health services; Access to water; Access to electricity; Access to education; Access to livelihoods; Intention to stay in the location for transit only; Assumed possibility for cross border movement from the location; Return to community of origin; Availability of safe passages to these locations; Other; Not sure	Community
<i>Research Question 1: What are the expected displacement patterns of IDP and resident/pre-conflict populations in Idleb governorate</i>	B.2.7.	KI interview	Intended destination	Do you know where else resident population households intended to go?	Yes; No	Community
	B.2.7.1.	KI interview	Intended governorate	To which governorate do resident population households intend to go?	Admin list	Community
		KI interview		Other:		Community
	B.2.7.2.	KI interview	Intended district	Do you know to which district resident population households intend to go?	Yes; No	Community
		KI interview		To which district do resident population households intend to go?	Admin list	Community
	B.2.7.3.	KI interview	Intended sub-district	Do you know to which sub-district resident population households intend to go?	Yes; No	Community
		KI interview		To which sub-district do resident population households intend to go?	Admin list	Community

<i>and surrounding areas?</i>	B.2.7.4.	KI interview	Intended community	Do you know to which community resident population households intend to go?	Yes; No	Community	
		KI interview		To which community do resident population households intend to go?	Admin list	Community	
		KI interview		To which managed camp/managed but unrecognised camp/informal settlement outside a community do resident population households intend to go?	ISIMM list	Community	
		KI interview		Intended destination - other community:		Community	
		KI interview		Please enter any other information you have about the intended destination, camp or informal settlement:		Community	
	Research Question 2: What are the most common push and pull factors that are likely to affect displacement patterns?	B.2.7.5.	KI interview	Three main factors	What are the three main factors causing resident population households to choose this particular destination to move to in the next month?	Access to income and employment opportunities; Family ties / host community relationship; Distance to current location; Safety and security situation in the intended destination; Access to humanitarian assistance; Access to food; Access to health services; Access to water; Access to electricity; Access to education; Access to livelihoods; Intention to stay in the location for transit only; Assumed possibility for cross border movement from the location; Return to community of origin; Availability of safe passages to these locations; Other; Not sure	Community
		B.2.8.	KI interview	Main factors why resident population households intend to leave based on the current situation and movement restrictions	Based on the current situation and movement restrictions, what are the main factors why resident population households intend to leave the assessed community in the next 30 days?		Community
		B.2.8.1.	KI interview		What is the main factor why resident population households intend to leave the assessed community?	Access to income and employment opportunities; Family ties / host community relationship; Distance to current location; Safety and security situation in the intended destination; Access to humanitarian assistance; Access to food; Access to health services; Access to water; Access to electricity; Access to education; Access to livelihoods; Intention to stay in the location for transit only; Assumed possibility for cross border movement from the location; Return to	Community

<i>Research Question 1: What are the expected displacement patterns of IDP and resident/pre-conflict</i>				community of origin; Availability of safe passages to these locations; Other; Not sure		
		KI interview		Other:	Community	
	B.2.8.2.	KI interview		What is the second main factor why resident population households intend to leave the assessed community?	Access to income and employment opportunities; Family ties / host community relationship; Distance to current location; Safety and security situation in the intended destination; Access to humanitarian assistance; Access to food; Access to health services; Access to water; Access to electricity; Access to education; Access to livelihoods; Intention to stay in the location for transit only; Assumed possibility for cross border movement from the location; Return to community of origin; Availability of safe passages to these locations; Other; Not sure	Community
		KI interview		Other:	Community	
	B.2.8.3.	KI interview		What is the third main factor why resident population households intend to leave the assessed community?	Access to income and employment opportunities; Family ties / host community relationship; Distance to current location; Safety and security situation in the intended destination; Access to humanitarian assistance; Access to food; Access to health services; Access to water; Access to electricity; Access to education; Access to livelihoods; Intention to stay in the location for transit only; Assumed possibility for cross border movement from the location; Return to community of origin; Availability of safe passages to these locations; Other; Not sure	Community
		KI interview		Other:	Community	
	B.2.9.	KI interview	Resident population household profiles intending to move based on current movement restrictions and situation	Based on the current movement restrictions and situation, what profiles of resident population households are intending to move in the next month?	Married men with their family (wife, children, other immediate family); Married men without their family; Unmarried / single men; Married women with their family without husband (children, other immediate family); Married women without their family; Unmarried / single women; Unaccompanied children; Elderly; Other; Not sure	Community
		KI interview		Other:	Community	

<i>populations in Idleb governorate and surrounding areas?</i>	B.2.10.	KI interview	Resident population households preferred intended destination if there were no movement restrictions	If there were no movement restrictions, either out of the current location or into other locations, where would resident population households prefer to go?		Community	
	B.2.10.1.	KI interview		Where would resident population households prefer to go (1st place)? (Governorate)	Admin list	Community	
		KI interview		Where would resident population households prefer to go (1st place)? (Sub-district)	Admin list	Community	
	B.2.10.2.	KI interview		Where would resident population households prefer to go (2nd place)? (Governorate)	Admin list	Community	
		KI interview		Where would resident population households prefer to go (2nd place)? (Sub-district)	Admin list	Community	
	B.2.10.3.	KI interview		Where would resident population households prefer to go (3rd place)? (Governorate)	Admin list	Community	
		KI interview		Where would resident population households prefer to go (3rd place)? (Sub-district)	Admin list	Community	
	B.2.11.	KI interview		Reason why resident population households intend to stay based on the current situation	Based on the current situation, what are the main reasons why resident population households intend to stay in the assessed community in the next month?	Access to income and employment opportunities; Protect assets; Family ties / relationship with host community; Safety and security situation; Access to humanitarian assistance; Access to food; Access to health services; Access to water; Access to electricity; Movement restrictions; Insufficient funds; Inability to travel (elderly/disabled/chronic illness); Other; Not sure	Community
	<i>Research Question 2: What are the most common push and pull factors that are likely to affect displacement patterns?</i>	B.3.1.		KI interview	Potential factors triggering departure	What potential factors could make resident population households leave the community who are currently intending to stay (or make resident population households leave earlier than intended)?	Escalation of ground-based conflict; Escalation of aerial bombardment; Anticipation of future conflict escalation; Loss of income; Loss of assets; Reduced access to food; Reduced access to water; Reduced access to electricity; Reduced access to health services; Reduced access to shelter; Reduced access to education; Opening of safe passages to elsewhere; Change in administration/governing authorities;

<p><i>Research Question 1: What are the expected displacement patterns of IDP and resident/pre-conflict populations in Idleb governorate and surrounding areas?</i></p>					Anticipation of forced recruitment to armed groups; Increased perceived stability and security in community of origin; Other; Not sure		
		KI interview		Other:		Community	
	B.3.2.	KI interview	Proportion of resident population households in the community expected to leave	If conflict in or around the community intensified, what proportion of the resident population households in the community would you expect to leave?	0%; 1-10%; 11-20%; 21-30%; 31-40%; 41-50%; 51-60%; 61-70%; 71-80%; 81-90%; 91-100%; Not sure	Community	
	B.3.3.	KI interview	Expected main destination	If conflict in or around the community intensified, what would you expect to be the main destinations of resident population households leaving?		Community	
	B.3.3.1.	KI interview	Intended governorate		To which governorate do you expect resident population households to go?	Admin list	Community
		KI interview			Other:		Community
	B.3.3.2	KI interview	Intended district		To which district do you expect resident population households intend to go?	Admin list	Community
	B.3.3.3.	KI interview	Intended sub-district		To which sub-district do you expect resident population households to go?	Admin list	Community
<p><i>Research Question 2: What are the most common push and pull factors that are likely to affect</i></p>	B.3.3.4.	KI interview	Three main factors	What are the three main factors why resident population households would choose this particular destination to move to?	Access to income and employment opportunities; Family ties / host community relationship; Distance to current location; Safety and security situation in the intended destination; Access to humanitarian assistance; Access to food; Access to health services; Access to water; Access to electricity; Access to education; Access to livelihoods; Intention to stay in the location for	Community	

<i>displacement patterns?</i>				transit only; Assumed possibility for cross border movement from the location; Return to community of origin; Availability of safe passages to these locations; Other; Not sure

5. Data Management Plan

Administrative Data			
Research Cycle name	Idleb and surrounding areas: Population Movement Intentions Overview		
Project Code	16CPS/16CVD/16DGJ		
Donor	CCCM		
Project partners	-		
Research Contacts	Timothée Moser (timothee.moser@reach-initiative.org) Tristan Minihane (tristan.minihane@reach-initiative.org) Christoph Rother (christoph.rother@reach-initiative.org) Laura Thisted (laura.thisted@reach-initiative.org)		
Data Management Plan Version	Date: 07/10/2018	Version: 01	
Related Policies	Data management plan based on models and standards developed by the Digital Curation Centre (DCC), http://www.dcc.ac.uk .		
Documentation and Metadata			
What documentation and metadata will accompany the data? <i>Select all that apply</i>	<input checked="" type="checkbox"/>	Data analysis plan	<input checked="" type="checkbox"/> Data Cleaning Log, including: <input checked="" type="checkbox"/> Deletion Log <input checked="" type="checkbox"/> Value Change Log
	<input type="checkbox"/>	Code book	<input type="checkbox"/> Data Dictionary
	<input checked="" type="checkbox"/>	Metadata based on HDX Standards	<input type="checkbox"/> [Other, Specify]
Ethics and Legal Compliance			
Which ethical and legal measures will be taken?	<input checked="" type="checkbox"/>	Consent of participants to participate	<input type="checkbox"/> Consent of participants to share personal information with other agencies
	<input checked="" type="checkbox"/>	No collection of personally identifiable data will take place	<input checked="" type="checkbox"/> Gender, child protection and other protection issues are taken into account
	<input checked="" type="checkbox"/>	All participants reached age of majority	[Other, Specify]
Who will own the copyright and Intellectual Property Rights for the data that is collected?	UNHCR/CCCM Cluster		
Storage and Backup			
Where will data be stored and backed up during the research?	<input checked="" type="checkbox"/>	IMPACT/REACH Kobo Server	<input type="checkbox"/> Other Kobo Server: <i>[specify]</i>
	<input type="checkbox"/>	IMPACT Global Physical / Cloud Server	<input type="checkbox"/> Country/Internal Server
	<input checked="" type="checkbox"/>	On devices held by REACH staff	<input type="checkbox"/> Physical location <i>[specify]</i>
	<input type="checkbox"/>	[Other, Specify]	
Which data access and security measures have been taken?	<input checked="" type="checkbox"/>	Password protection on devices/servers	<input checked="" type="checkbox"/> Data access is limited to REACH Syria Assessment Staff.
	<input type="checkbox"/>	Form and data encryption on data collection server	
	<input type="checkbox"/>	[Other, Specify]	
Preservation			
Where will data be stored for long-term	<input checked="" type="checkbox"/>	IMPACT / REACH Global Cloud / Physical Server	<input type="checkbox"/> OCHA HDX

preservation?	<input type="checkbox"/>	REACH Country Server	X	UNHCR Server
Data Sharing				
Will the data be shared publicly?	<input type="checkbox"/>	Yes	X	No, only with mandating agency / body
Will all data be shared?	<input type="checkbox"/>	Yes	X	No, only anonymized/ cleaned/ consolidated data will be shared
	<input type="checkbox"/>	No, [Other, Specify]		
Where will you share the data?	<input type="checkbox"/>	REACH Resource Centre	<input type="checkbox"/>	OCHA HDX
	<input type="checkbox"/>	Humanitarian Response	<input type="checkbox"/>	[Other, Specify]
Responsibilities				
Data collection	Zaki Mustafa, Programmes Officer, antakya.po3@reach-initiative.org Safaa Harahsheh, Programme Officer, antakya.po2@reach-initiative.org			
Data cleaning	Timothée Moser, Assessment Officer, timothee.moser@reach-initiative.org			
Data analysis	Timothée Moser, Assessment Officer, timothee.moser@reach-initiative.org Tristan Minihane, Assessment Officer, tristan.minihane@reach-initiative.org			
Data sharing/uploading	Timothée Moser, Assessment Officer, timothee.moser@reach-initiative.org Tristan Minihane, Assessment Officer, tristan.minihane@reach-initiative.org Laura Thisted, Assessment Manager, laura.thisted@reach-initiative.org			

6. Monitoring & Evaluation Plan

- Please complete the M&E Plan column in the table and use the corresponding Tools in the Monitoring & Evaluation matrix to implement the plan during the research cycle.

IMPACT Objective	External M&E Indicator	Internal M&E Indicator	Focal point	Tool	Will indicator be tracked?
Humanitarian stakeholders are accessing IMPACT products	Number of humanitarian organisations accessing IMPACT services/products	# of downloads of x product from Resource Center	Country request to HQ	User_logging	X Yes (total downloads, including all platforms until 31 November 2018: 722)
		# of downloads of x product from Relief Web	Country request to HQ		<input type="checkbox"/> Yes
		# of downloads of x product from Country level platforms	Country team		<input type="checkbox"/> Yes
	Number of individuals accessing IMPACT services/products	# of page clicks on x product from REACH global newsletter	Country request to HQ		<input type="checkbox"/> Yes
		# of page clicks on x product from country newsletter, sendingBlue, bit.ly	Country team		<input type="checkbox"/> Yes
		# of visits to x webmap/x dashboard	Country request to HQ		<input type="checkbox"/> Yes
IMPACT activities contribute to	Number of humanitarian organisations	# references in HPC documents (HNO, SRP, Flash appeals, Cluster/sector strategies)	Country team	Reference_log	OCHA Syria Crisis Updates; SIRF Forward; NES NGO

better program implementation and coordination of the humanitarian response	utilizing IMPACT services/products				<i>Operational Leadership Update</i>
		# references in single agency documents			---
Humanitarian stakeholders are engaged in IMPACT programs throughout the research cycle	Number and/or percentage of humanitarian organizations directly contributing to IMPACT programs (<i>providing resources, participating to presentations, etc.</i>)	# of organisations providing resources (i.e. staff, vehicles, meeting space, budget, etc.) for activity implementation	Country team	Engagement_log	<input type="checkbox"/> Yes
		# of organisations/clusters inputting in research design and joint analysis			<input type="checkbox"/> Yes
		# of organisations/clusters attending briefings on findings;			<input type="checkbox"/> Yes
